

State Road Occupational Medical Facility has been working for more than a decade to bring the Ashtabula area business community the finest occupational health and safety related services that are approved by the Bureau of Workers Compensation. We understand the need for a wide array of services provided within one centrally located facility.

State Road Occupational Medical Facility is NOT affiliated with any other corporate entity which enables us to keep our overhead low while providing affordable healthcare to our community.

We are the first medical facility in Ashtabula County to offer quality family healthcare services to the uninsured, underinsured, or those who are simply tired of long waits to get access to healthcare services. We let you know UP FRONT what your costs will be. There are no hidden charges and no surprises. Our office visit fee is \$60.00 and is not dependent on income or insurance status.

We have recently expanded our health services to include: **Family Practice, Chiropractic Care, and Massage Therapy**. Our partnerships include: **Physical Therapy** which is conveniently located on site. Contact information can be found on our [Contact Us](#) page.

Attention all DOT/CDL drivers: We provide medical examiner's certificates in accordance with the new Federal Motor Carrier Safety Administration (FMCSA) regulations.

All services are self-pay at the time they are rendered. For those with insurance we are happy to provide documentation for reimbursement of services from your insurance company. For your convenience, our facility accepts cash, check, Mastercard, Visa, and debit cards.

If you need to schedule an appointment, please call 440-997-5988.
