Motion to Approve the Consent Agenda by Mahony/Lynam.

Discussion:

Trustee Lynam stated that due to Trident Defense no longer being included as a sponsor of the grant, the value of the grant has been reduced. He asked if the Village would need to pick up the difference since it is in a revenue sharing arrangement with Speedway. He also asked if the difference could be made up with TIF funds. Administrator Johnsen explained that the Village entered into the agreement with Speedway when there was no secured grant funding. Grant funding has since been secured and Trident Defense was added to the grant. However, Trident Defense ended up not relocating and was removed from the grant. She stated that at one time, there were two sponsors that increased the grant to \$2 million. But now there is just the original sponsor, National Tool, with a grant in the original amount of \$1 million.

Next, Trustee Lynam asked for clarification on the abatement of the Tax Levy. Administrator Johnsen explained that since these are general obligation bonds, the County would automatically levy these dollar amounts from the residents. The Village has dedicated revenue earmarked to make the debt service payments and does not need additional property taxes to levy. This ordinance tells the County to not levy these on the residents.
