

## Gem County Noxious Weed Priorities 2020

1. Prevent -- No known populations are present
  2. Eradicate -- Small populations, eradication very possible, few infestations
  3. Control -- Work toward eradication which may not be possible due to multiple infestations
  4. Contain -- Large, widespread populations, work to reduce and keep from spreading
- EDRR -- State Designation: Early detection and rapid response

<i>Noxious Weed Species</i>	<i>25 County Priority</i>	<i>65 State Priority</i>	<i>Gem Co. Bio-Control Program</i>
Black Henbane	1	Control	
Brazilian Elodea	1	EDRR	
Buffalobur	1	Control	
Canada Thistle	4	Contain	Yes
Common Crupina	1	Control	
Common European Forgbit	1	EDRR	
Common Reed Phragmites	2	Control	
Curlyleaf Pondweed	1	Contain	
Dalmatian Toadflax	2	Contain	
Diffuse Knapweed	2	Contain	
Dyer's Woad	1	Control	
Eurasian Watermilfoil	3	Control	
Fanwort	1	EDRR	
Feathered Mosquito Fern	1	EDRR	
Field Bindweed	4	Contain	Yes
Flowering Rush	1	Contain	
Giant Hogweed	1	EDRR	
Giant Salvina	1	EDRR	
Hoary Alyssum	1	Contain	
Houndstongue	3	Contain	
Hydrilla	1	EDRR	
Iberian Starthistle	1	EDRR	
Johnsongrass	1	Control	
Jointed Goatgrass	3	Contain	
Knotweed, Bohemian	1	Control	
Knotweed, Giant	1	Control	
Knotweed, Japanese	3	Control	
Leafy Spurge	2	Contain	

### STATE PRIORITIES:

**EDRR:** Must be reported to the ISDA within 10 days of identification. Eradication process must begin in the same season of discovery.

**STATEWIDE CONTROL:** Plants may exist in some parts of the State. In some areas eradication is possible. A plan must be written that will reduce infestations within 5 years.

**STATEWIDE CONTAINMENT:** Plants exist in the State. New and small infestations can be eliminated, while established populations may be managed as determined by the weed control authority, which is the County Weed Program.

**STATEWIDE PROHIBITED GENERA:** All plants and plant parts in the generas of: Cytisus, Genista, Spartium, and Chamaecytisus including all subtaxa of these plant genera are prohibited in Idaho. These plants are all known as brooms.
