ABOUT NYSEG, RG&E AND IBERDROLA USA:

NYSEG and RG&E are subsidiaries of Iberdrola USA. NYSEG serves 881,000 electricity customers and 263,000 natural gas customers across more than 40% of upstate New York. RG&E serves 371,000 electricity customers and 307,000 natural gas customers in a nine-county region centered on the City of Rochester. Iberdrola USA, a subsidiary of global energy leader Iberdrola, S.A., is an energy services and delivery company with nearly 3 million customers in upstate New York and New England. We are a team of dedicated individuals working as one to deliver value to our customers, employees and shareholders. By providing outstanding customer service and exceptional reliability, while holding safety and the environment in high regard, we aspire to be a world-class energy company. For more information, visit nyseg.com, rge.com and iberdrolausa.com.

Go ahead – **upgrade**

As an active ally in promoting a strong and healthy economy in Upstate New York, there's no one more committed to helping you than New York State Electric & Gas Corporation (NYSEG) and Rochester Gas and Electric Corporation (RG&E).

As your energy partner, we're dedicated to helping you grow your business with some of the most enterprising energy-related incentives in the country.

Whether you're ready to move into Upstate New York or are already here and want to expand, make sure your first call is to NYSEG's and RG&E's economic development team at **1.800.456.5153** or visit us at lookupstateny.com.

The *Genesee-Finger Lakes Regional Atlas*, here after referred to as the *Atlas*, provides a geographic and demographic overview of the nine-county Genesee-Finger Lakes Region. Utilizing socio-economic and demographic data, along with maps, graphs, charts, and tables the *Atlas* provides a summary and illustration of the Genesee-Finger Lakes Region covering a wide range of subject areas including:

- land use
- population
- housing
- transportation
- economy
- government
- agriculture
- education
- health
- public safety

The data and associated analysis will help serve as a baseline that can be utilized by municipal, county, regional, state, and federal agencies for land use, community, transportation, and economic development planning.

The *Atlas* is organized by subject area with each area containing an assortment of data, maps, charts, and tables, each covering a specific component of the broader subject matter. Data is displayed at a variety of geographic levels throughout the *Atlas* (e.g., county, town, village, and school district) depending on the availability of the data. Village data is included in the town totals in all tables except where noted.

It should also be noted that the data for the Village of Attica is displayed for both Genesee and Wyoming Counties and the data for the Village of Rushville is displayed for both Ontario and Yates Counties as a part of each municipality falls within each county.

In addition to this hard copy format, the *Atlas* is also available for download in PDF and Excel formats at the Genesee/Finger Lakes Regional Planning Council website www.gflrpc.org.

The Genesee-Finger Lakes Region, displayed within Map 2 on page

3, encompasses approximately 4,700 square miles in west-central New York State and includes the counties of Genesee, Livingston, Monroe, Ontario, Orleans, Seneca, Wayne, Wyoming, and Yates. The Region is bordered by Lake Ontario to the north, the Southern Tier Region and foothills of the Appalachian Mountains to the south, Syracuse and the Central New York Region to the east, and the Buffalo-Niagara metropolitan area to the west. The nine-county Region currently contains 190 municipalities, which includes: four cities, 125 towns, 60 villages, and one coterminous town-village. The Genesee-Finger Lakes Region had a population of 1,217,156 according to the 2010 Census.

A wide-variety of data sources were utilized during the development of the *Atlas* including:

- U.S. Census
- U.S. Department of Labor Bureau of Labor Statistics
- New York State Department of Labor
- New York State Department of Transportation
- United States Department of Agriculture
- New York State Comptroller
- Rochester Genesee Regional Transportation Authority
- New York State Office of Parks, Recreation & Historic Preservation
- New York State Department of Taxation and Finance
- United States Bureau of Economic Analysis
- New York State Department of Health
- New York State Division of Criminal Justice Services
- New York State Division of Homeland Security and Emergency Services

Wherever possible the 2010 Decennial Census was utilized. The sampling error for this data set is much lower than the American Community Survey (ACS) data resulting in higher level of accuracy and more reliable results. The U.S. Census Bureau discontinued the long-form of the decennial Census after 2000, therefore decennial Census data for 2010 is only available for a limited number of data tables. As a result many of the data tables contained within the 1980, 1990, and 2000 decennial census, are now only part of the ACS data. Though the ACS data has a smaller sample size than the Decennial Census, and thus a greater margin of error, it

remains a valuable resource in identifying the ongoing trends within the nine-county Genesee-Finger Lakes Region.

The ACS was fully implemented in 2005 to fill the void of the Census long-form. The ACS is an on-going survey, which produces estimates in 1-year, 3-year, and 5-year increments. Yearly estimates are produced for areas with populations of 65,000 or more; 3-year estimates are produced for areas with 20,000-65,000 in population; and 5-year estimates are produced for areas with less than 20,000 in population.

As of a result of this change, and the differences in methodology between decennial and ACS data, accurate comparisons could not be made between decades and therefore it was not included within the Regional Atlas. This change impacts several tables including:

- household/occupancy/household vacancy
- poverty status
- income by household
- median household income
- median housing value
- value of housing units
- year structure built

Map 1: Northeast Region and Map 2: Genesee-Finger Lakes Region on pages 2 and 3 illustrate the geography of the 190 regional municipalities both within the nine-county Region as well as within the larger context of the northeast.

The *Atlas* was developed by the Genesee/Finger Lakes Regional Planning Council with assistance from the Genesee Transportation Council and input from each of the nine counties in the Genesee-Finger Lakes Region. Funding for the *Atlas* was received through the Unified Planning Work Program, which is a federal fund for transportation planning activities administered within the Genesee-Finger Lakes Region by the Genesee Transportation Council.

The Genesee/Finger Lakes Regional Planning Council is the Region's federally designated Economic Development District and provides economic development planning; local, regional and water resources planning; and serves as the data and technology resource center for the nine-county Genesee-Finger Lakes Region.

Introduction

Map 1: Northeast Region

Source: Genesee/Finger Lakes Regional Planning Council; boundary files from U.S. Census Bureau

The Land Use section of the *Atlas* includes a variety of data related to land use within the Genesee-Finger Lakes Region. The following components are included within this section:

- Building Permits (1998-2011)

The Region contains a variety of different land uses including:

- agriculture
- residential
- commercial
- industrial

A significant portion of the Region also includes water, primarily from the Finger Lakes, but also from several smaller lakes and the many rivers and creeks located throughout the nine-counties. Other land uses within the Region include Forest, Agriculture/Cropland, Open Space, and Urban/Built-Up.

Building permit data contained within this section was obtained from surveys conducted by the Genesee/Finger Lakes Regional Planning Council and Monroe County, of each municipality or county, as part of the annual Regional Land Use Monitoring Report and Land Use Report for Monroe County. The building permit data, along with Map 3: Total Residential Permits Issued in the Genesee-Finger Lakes Region on page 17, help to illustrate where the growth has been occurring within the Region over the last 10+ years. It is important to point out that the data is only measuring the number of permits and does not track if the proposed project was ultimately completed.

One difference between the building permit data and the other data tables within the *Atlas* is that the building permit data for each village is not included within the Town totals. Each are tracked separately as the village and the town outside of the village. This method allows for easier identification of building permit locations, and distinguishes development occurring within the village centers from development occurring in other locations

throughout the town.

The tables contain data for building permits under the categories: residential, industrial, commercial, and other. The *other* category includes community service buildings and additional buildings that are not classified elsewhere.

Map 3: Total Residential Permits Issued in the Genesee-Finger Lakes Region on page 17, illustrates the total number of residential building permits within each municipality for the period of 1998-2011. The map shows that over this timeframe the municipalities with the greatest number of residential building permits issued were the Town of Webster, the Town of Greece, and the Town of Henrietta.

Source: Genesee/Finger Lakes Regional Planning Council– Land Use Monitoring Reports 1998-2011 and Land Use Report for Monroe County 1998-2011

*Industrial permits for the year 2004 in the Town of Chili and 2004 and 2005 for the Town of Penfield were not separated out and are included within the Commercial category.

Notes: Town and Village permits are reported separately and, therefore, Town totals do not include permits issued within a Village; Wyoming County did not track industrial permits separately for the years 2002-2011 and are included within the commercial totals

Land Use

Land Use Definitions

Building Permits

Residential: single-family, two-family, three-or-four family, and five-or-more family housing units, and mobile homes/trailers.

Industrial: manufacturing/processing facilities, etc.

Commercial: offices/banks, retail/service, service stations, hotels/motels.

Community Service: hospitals and schools.

Other: building types not classified elsewhere.

Definitions from Genesee/Finger Lakes Regional Planning Council Land Use Monitoring Report and Land Use Report for Monroe County 1998-2011

Land Use

The Population and Housing section of the *Atlas* includes a variety of data related to population, households, and housing units within the nine-county Genesee-Finger Lakes Region. Included within the section are the following tables:

- Population Change 1980-2010
- Population Change 2000-2010
- Historical and Projected Population 1960-2050
- Household Occupancy/Household Vacancy 2000-2010
- Foreclosures 2007-2010
- Poverty Status 2010
- Income by Household 2010
- Age of Householder 1990-2010
- Median Household Income 2010
- Race of Householder 1990-2010
- Median Value of Housing Units 2011
- Value of Housing Units 2010
- Year Structure Built 2010

Most of the Region's population is concentrated within Monroe County, specifically within the City of Rochester and the surrounding suburbs. Outside Monroe County, the population centers include the cities of Batavia, Canandaigua, and Geneva as well as the many villages. Map 4: Population Change- Counties 1980-2010 and Map 5: Population Change- Municipalities 2000-2010 on pages 22 and 23 illustrate the change in population within the Region.

The unique characteristics of each community can lead to an inaccurate interpretation of data, so it is important to view the data within the context of the community. This is especially important within municipalities which contain a large college or university or a prison, as their presence (i.e. the presence of a significant number of college students or inmates) can skew the data including the population and poverty figures within the municipality. This is evident within the Village of Geneseo, which had 44.25 percent of its population living below the poverty level. At first glance a significant percentage, but when viewed in context with the large

number of students living within the Village, not as substantial as a percentage. Map 7: Poverty Status 2010 displays the percentage of the population of each municipality living in poverty on page 33 and Map 16: Institutions of Higher Learning 2013, located within the Education section on page 145, shows the colleges and universities located within the Genesee-Finger Lakes Region.

Another factor that can skew the data is the presence of a prison within a community and its impact on population. For U.S. Census purposes prisoners are counted as part of the population of the municipality in which the prison is located. This can result in misleading data and is evident with the Town of Romulus, which increased its population from 2,036 in the year 2000 to 4,316 in the year 2010. The reason behind this rapid growth, was the establishment of the Five Points Correctional Institution in the year 2000. While its opening was too late in the year to capture the population numbers for the 2000 Census their inclusion in the 2010 Census shows the impact that prisons can have in regards to municipal population. Map 19: Prisons 2013, located within the Public Safety section on page 165, displays the location of the prisons within the Region.

It is also important to note that changes were made to the household occupancy/vacancy table to improve the accuracy of the data. The U.S. Census classifies seasonal, recreational or occasional use housing units as vacant. As a result, the vacancy rates for communities located along Lake Ontario and the Finger Lakes were substantially skewed based on the large number of vacation homes within these areas. To alleviate this issue Genesee/Finger Lakes Regional Planning Council reclassified these housing units as occupied. As a result the household occupancy/vacancy table provides a more accurate depiction of the occupied/vacant housing situation within the Region. Map 6: Household Vacancy 2010 illustrates the vacancy rates of each municipality within the Region on page 32.

Town data for all Population and Housing tables, where applicable, includes Village data.

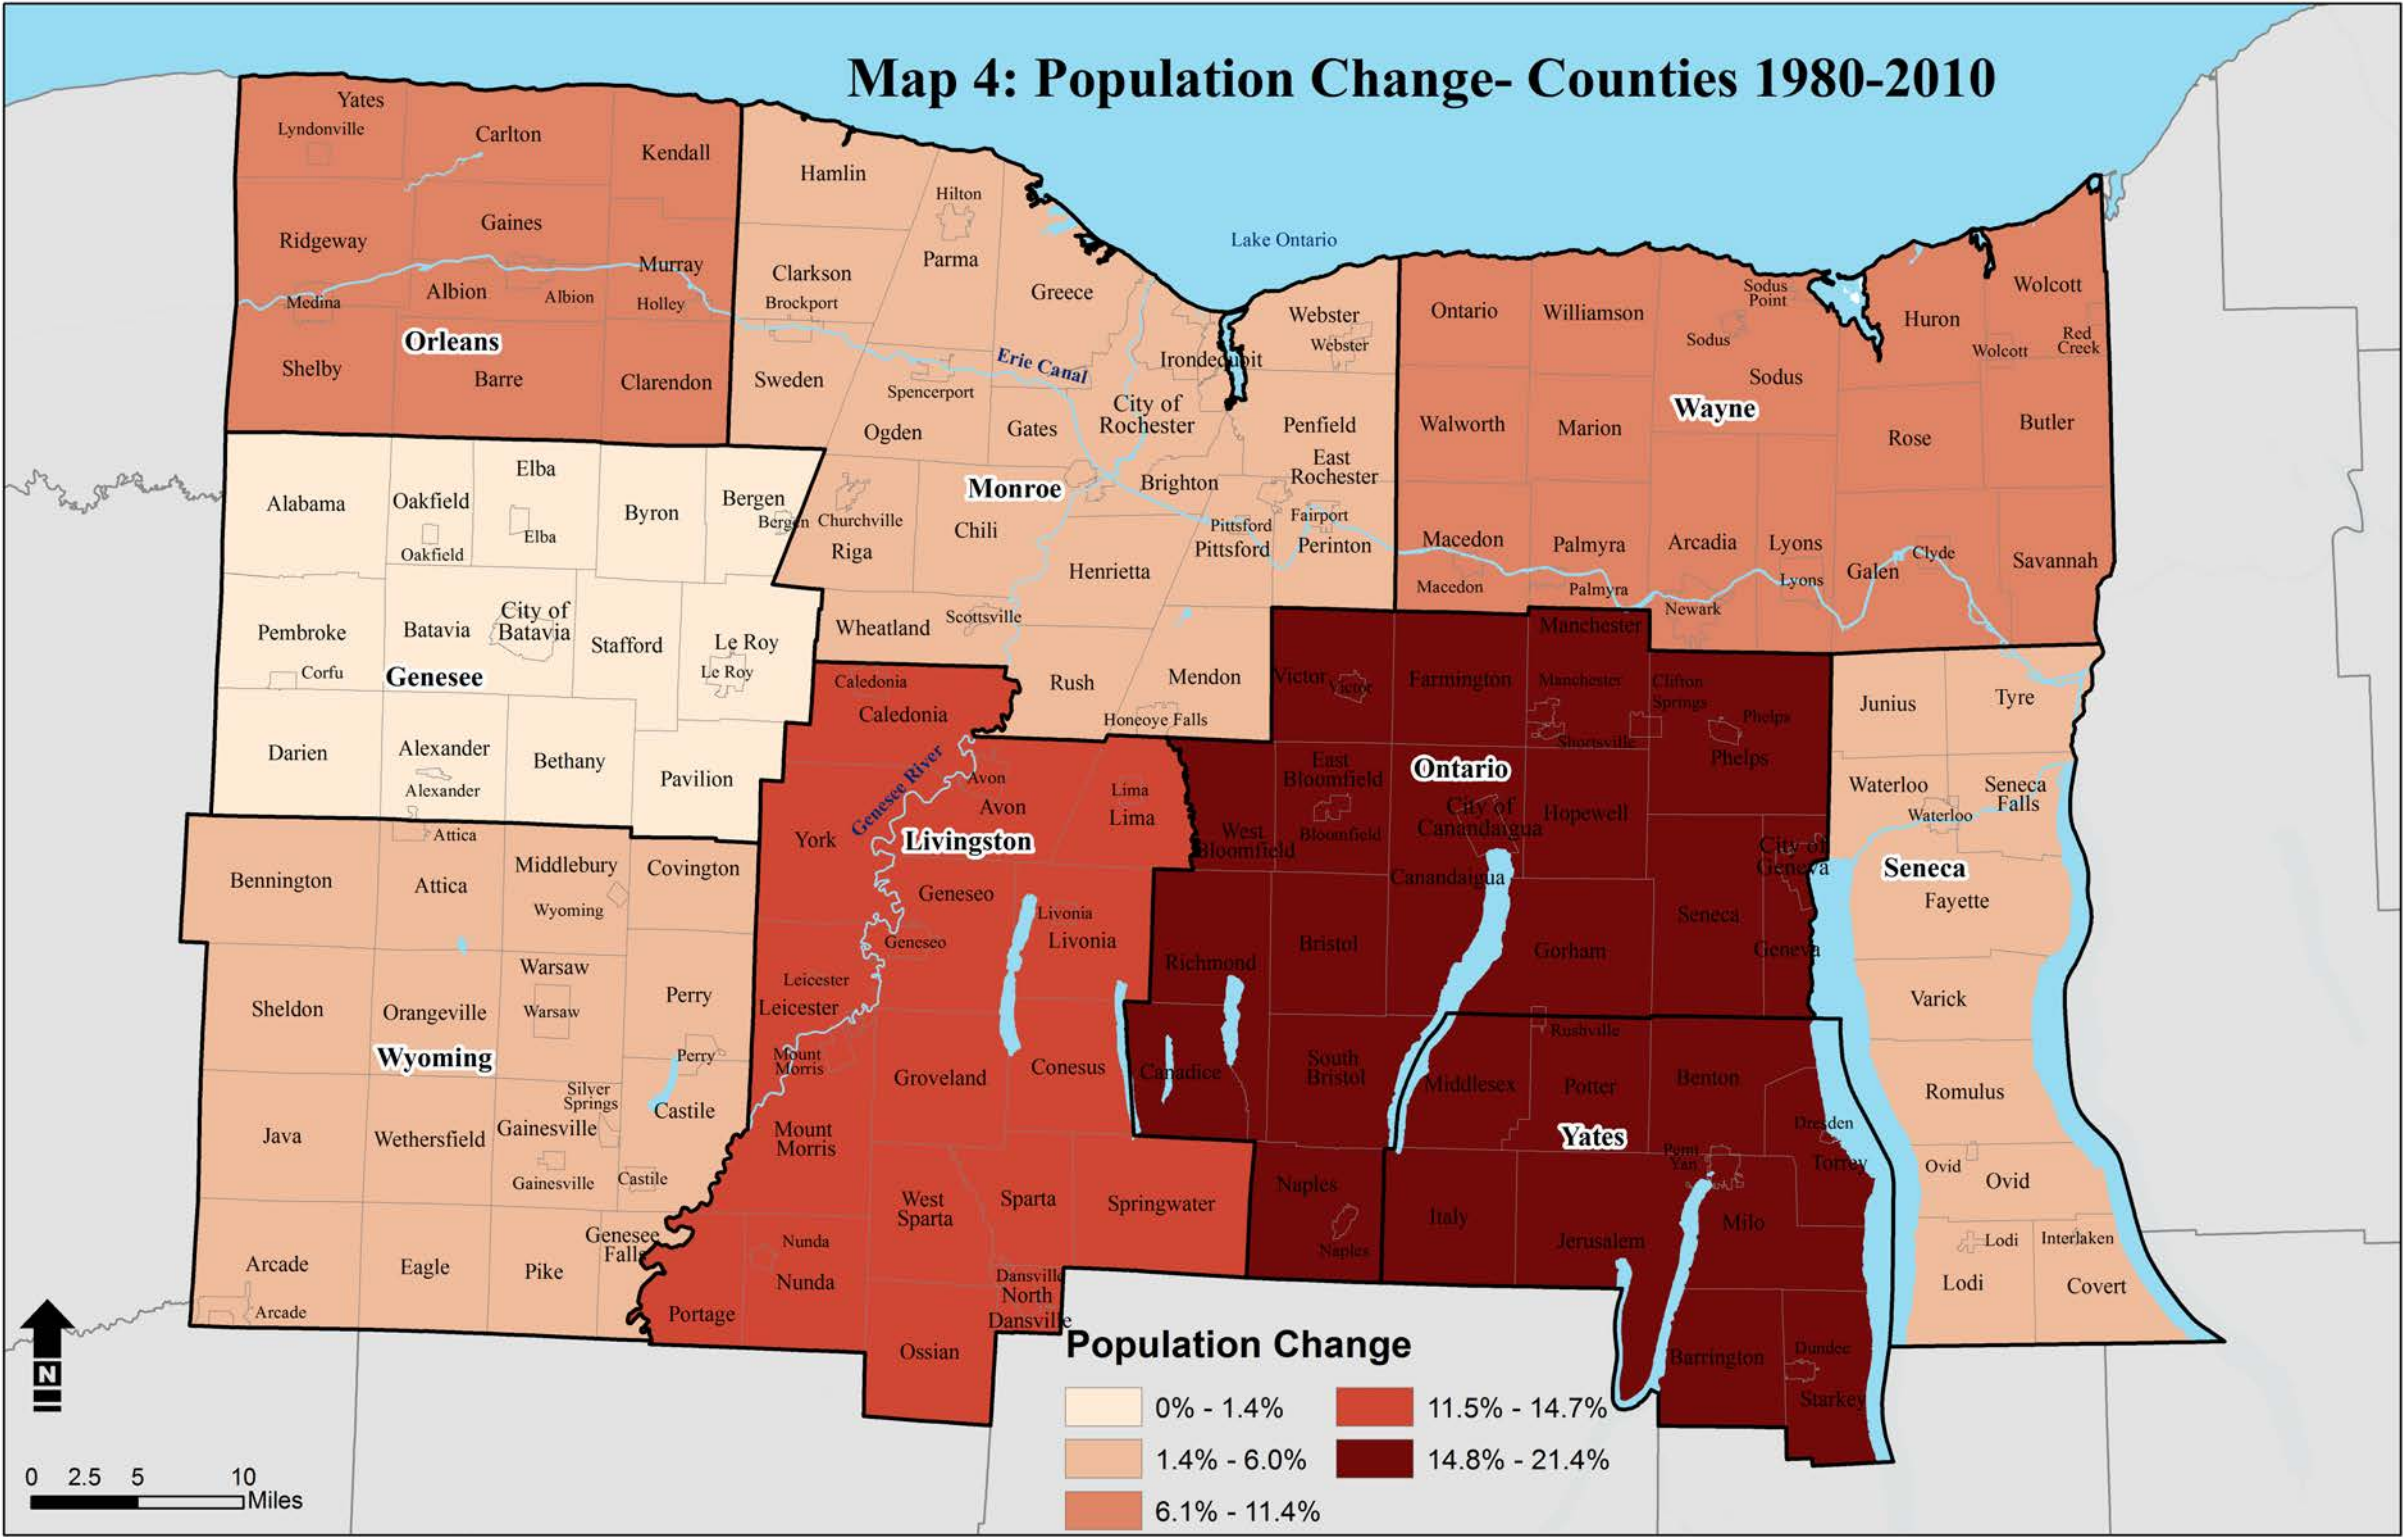

Additional Maps within the Population & Housing section of the *Atlas* include Map 8: Median Value of Housing Units 2011 on page 53, and Map 9: Percentage of Structures Built Before 1940 on page 65.

Population & Housing Definitions

Population¹

Projected Population²: Projected estimates of future population developed through quantitative and qualitative analysis.

Race: racial identity of Census responders.

Hispanic Origin: people of Hispanic ethnic origin, note that ethnic origin is a separate concept from race, people of Hispanic origin may be of any race.

Poverty Status: the Census Bureau uses a set of money income thresholds that vary by family size and composition to determine poverty level. If a family’s total income is below that family’s threshold, then that family, and each individual in it, is considered below the poverty level. The official poverty definition counts money income before taxes and excludes capital gains and non-cash benefits (such as public housing, Medicaid, and food stamps).

Housing¹

Occupied Housing Unit: a housing unit that is the usual place of residence of the person or people living in it on Census Day. Housing units that are classified as for seasonal, recreational or occasional use and also included within this category.

Vacant Housing Unit²: a housing unit in which no one is living on Census Day, excluding homes that are classified as for seasonal, recreational, or occasional use.

Householder: the member of a household who lives at a housing unit and owns, is buying, or rents the housing unit.

Median Household Income: the Median income of the household, which includes the householder and all other individuals living within the household aged 15 years or older.

Year Structure Built: Measure of the year in which the housing unit was built, includes both occupied and vacant housing units.

¹Definitions from U.S. Census Bureau
²Definitions from Genesee/Finger Lakes Regional Planning Council

The Transportation section of the *Atlas* presents a variety of data related to transportation, commuting, and vehicles within the nine-county Genesee-Finger Lakes Region. Included within this section are the following items:

- Transit Routes 2013
- Major Transportation Facilities
- Public Transit Service 2000-2012
- Commute to Work 2010
- Journey to Work 2010
- Travel Time to Work 2010
- Vehicle Registrations 2000 and 2010
- Motor Vehicle Accidents 2000 and 2010
- Freight Movement 2010
- Marine Law Enforcement 2001 and 2010
- Boating Vessel Registrations 2001 and 2010
- Boating Accidents & Deaths 2001 and 2010
- Snowmobile Registrations 2013

There are a variety of transportation options within the nine-county Genesee-Finger Lakes Region, including an international airport, passenger rail service, public transportation options in eight of the nine counties, and a network of state and federal highways and local roads. All of these options facilitate travel within and through the Region.

The many transportation options also provide businesses with the ability to move freight easily into, out-of, and within the Region.

The Region is located near a large number of employment centers including the Cities of Rochester, Buffalo, Syracuse, Ithaca, and Corning. The geography of the Region and the locations of each of the 190 municipalities relative to these employment centers shape the journey to work, commute to work, and travel time to work tables/maps that help to illustrate the travel patterns taking place.

While most of the data within the section is available at the municipal or county level, the Freight Movement data is only available at the Regional Level. As a result the Freight Movement table includes the total inbound and total outbound freight movement for all nine counties within the Region.

There are limitations with several of the transportation tables due to changes in the Decennial Census. Commute to work, journey to work, and travel time to work are no longer collected as part of the Decennial Census, but rather as part of the ACS. Due to the different methodology between the Decennial Census and the ACS, comparisons between the two tables were unable to be made.

Town data for all Transportation tables, where applicable, includes Village data.

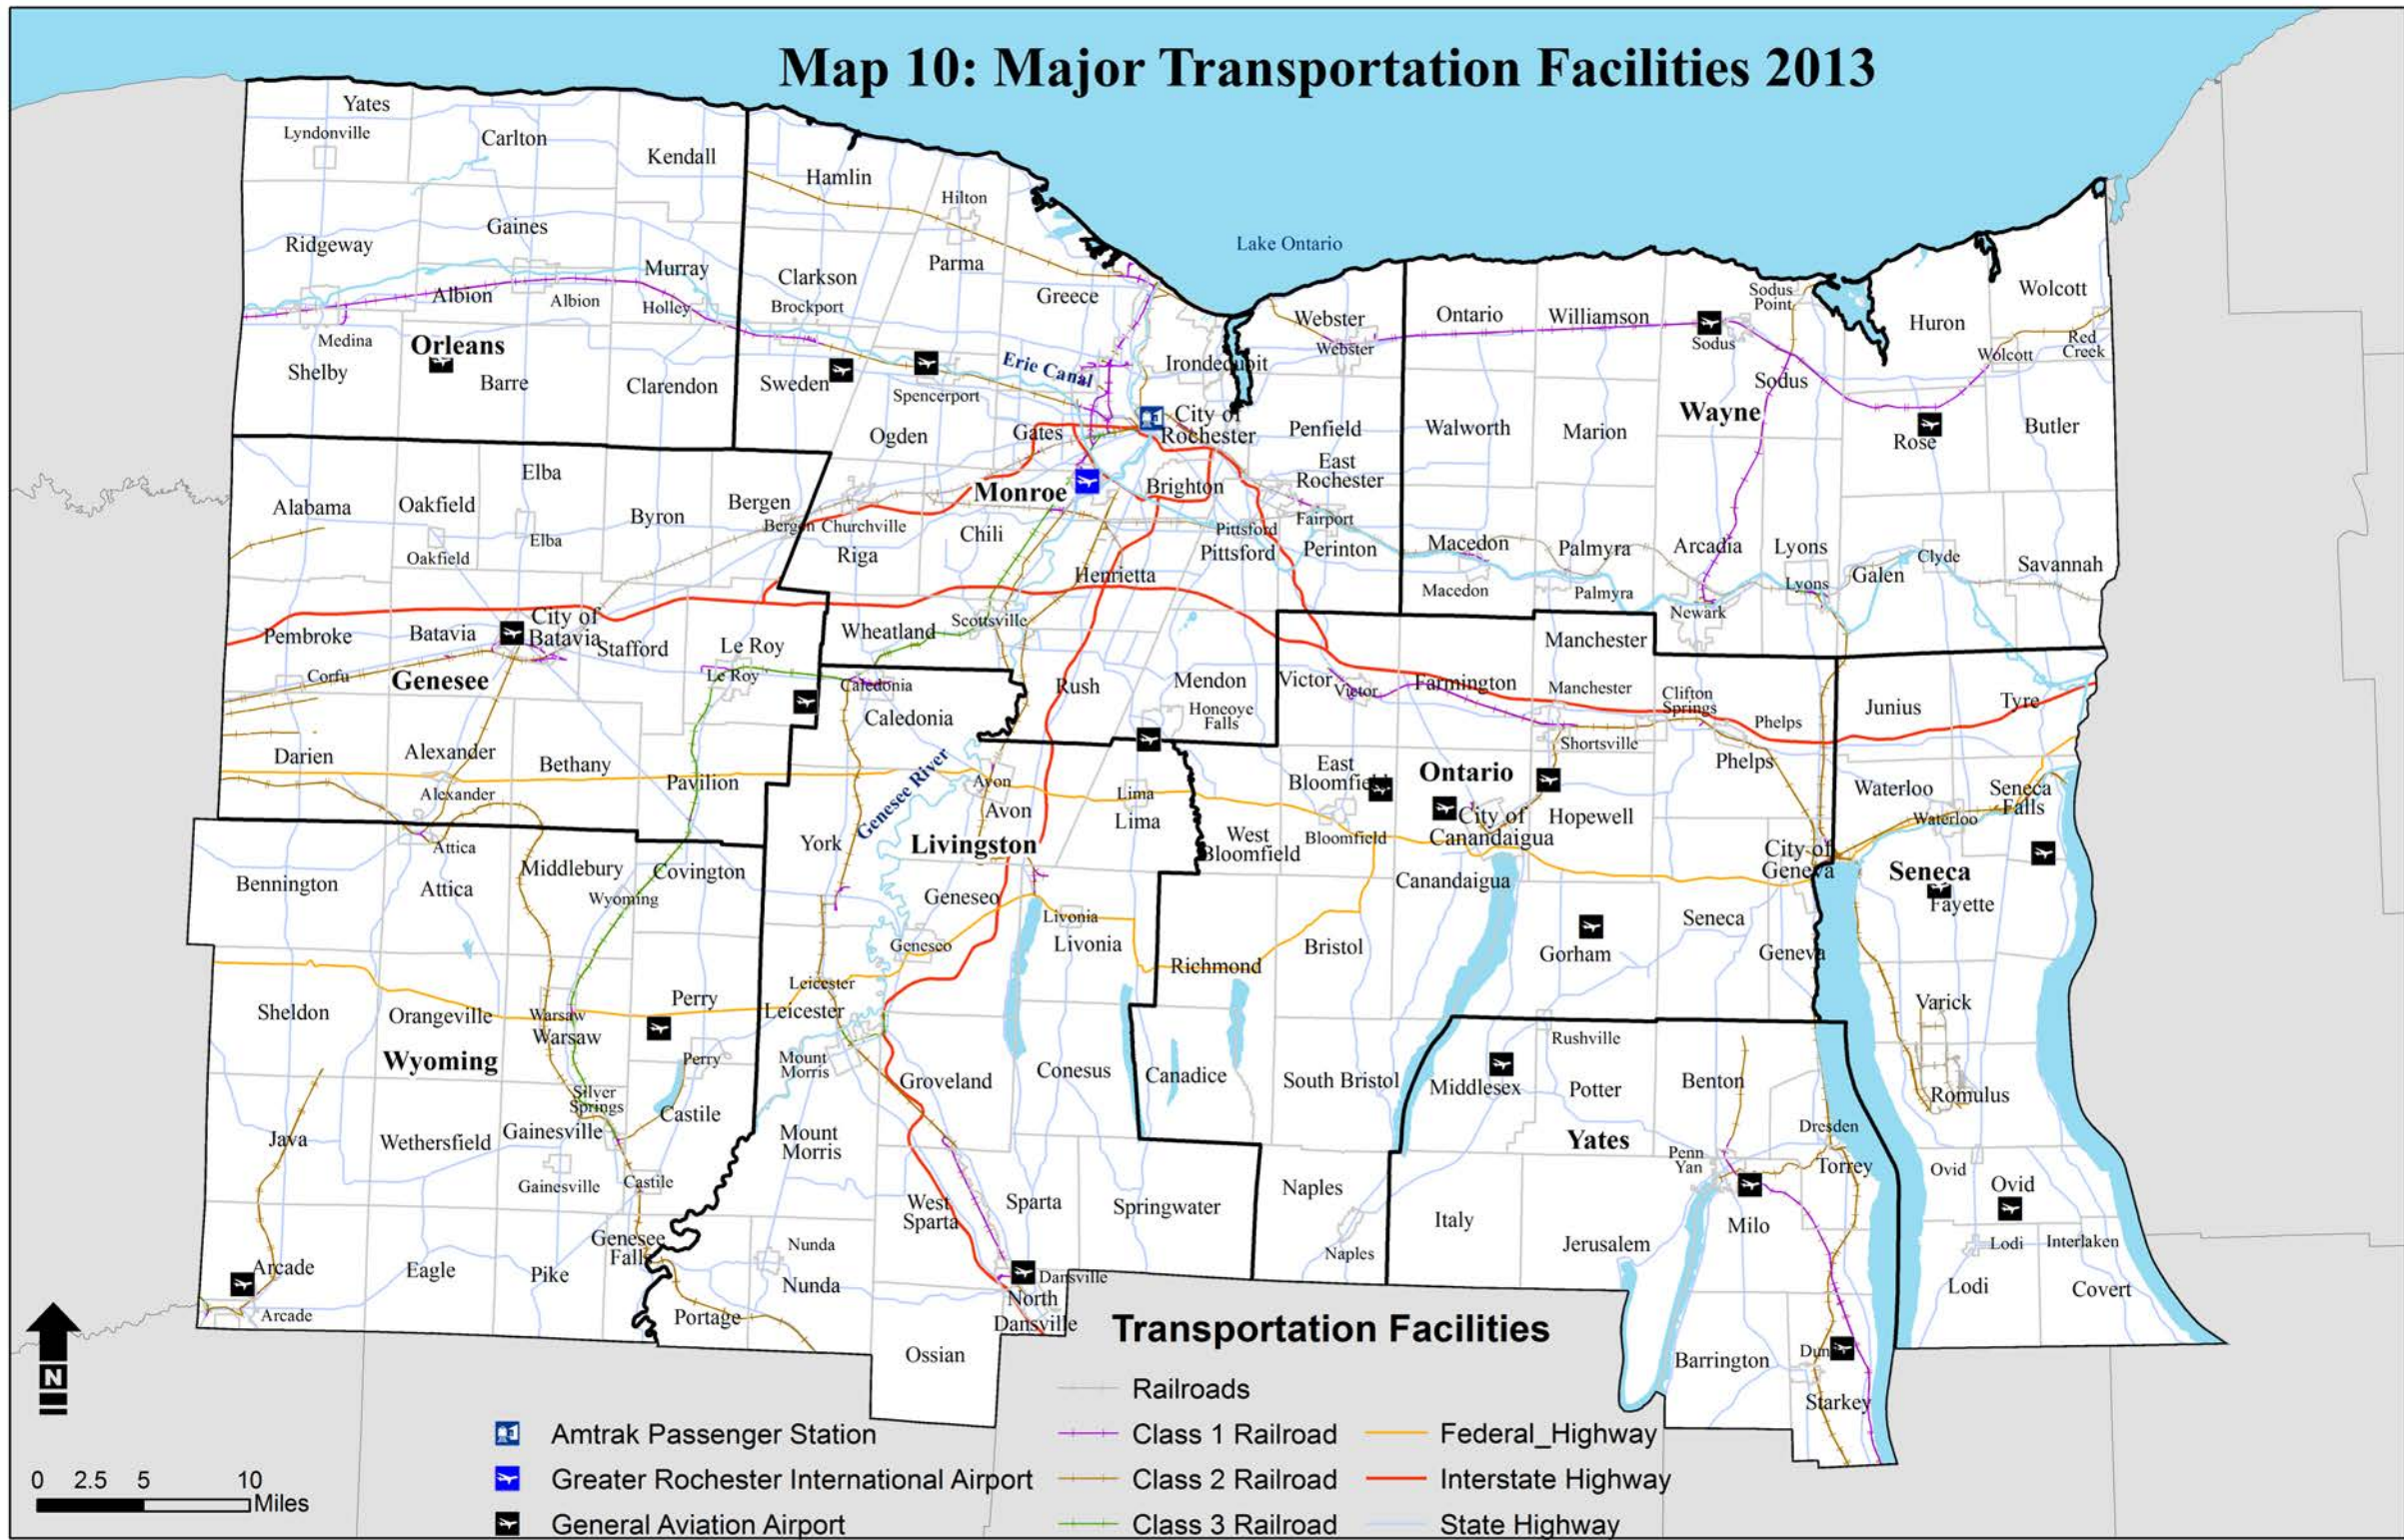

The following maps are included within the Transportation Section: Map 10: Major Transportation Facilities 2013 on page 70; Map 11: Public Transit Routes 2013 on page 71; Map 12: Journey to Work 2010, which consists of nine total maps, one for each county on pages 78, 79, and 80; and Map 13: Average Travel Time to Work by Municipality 2010 on page 86.

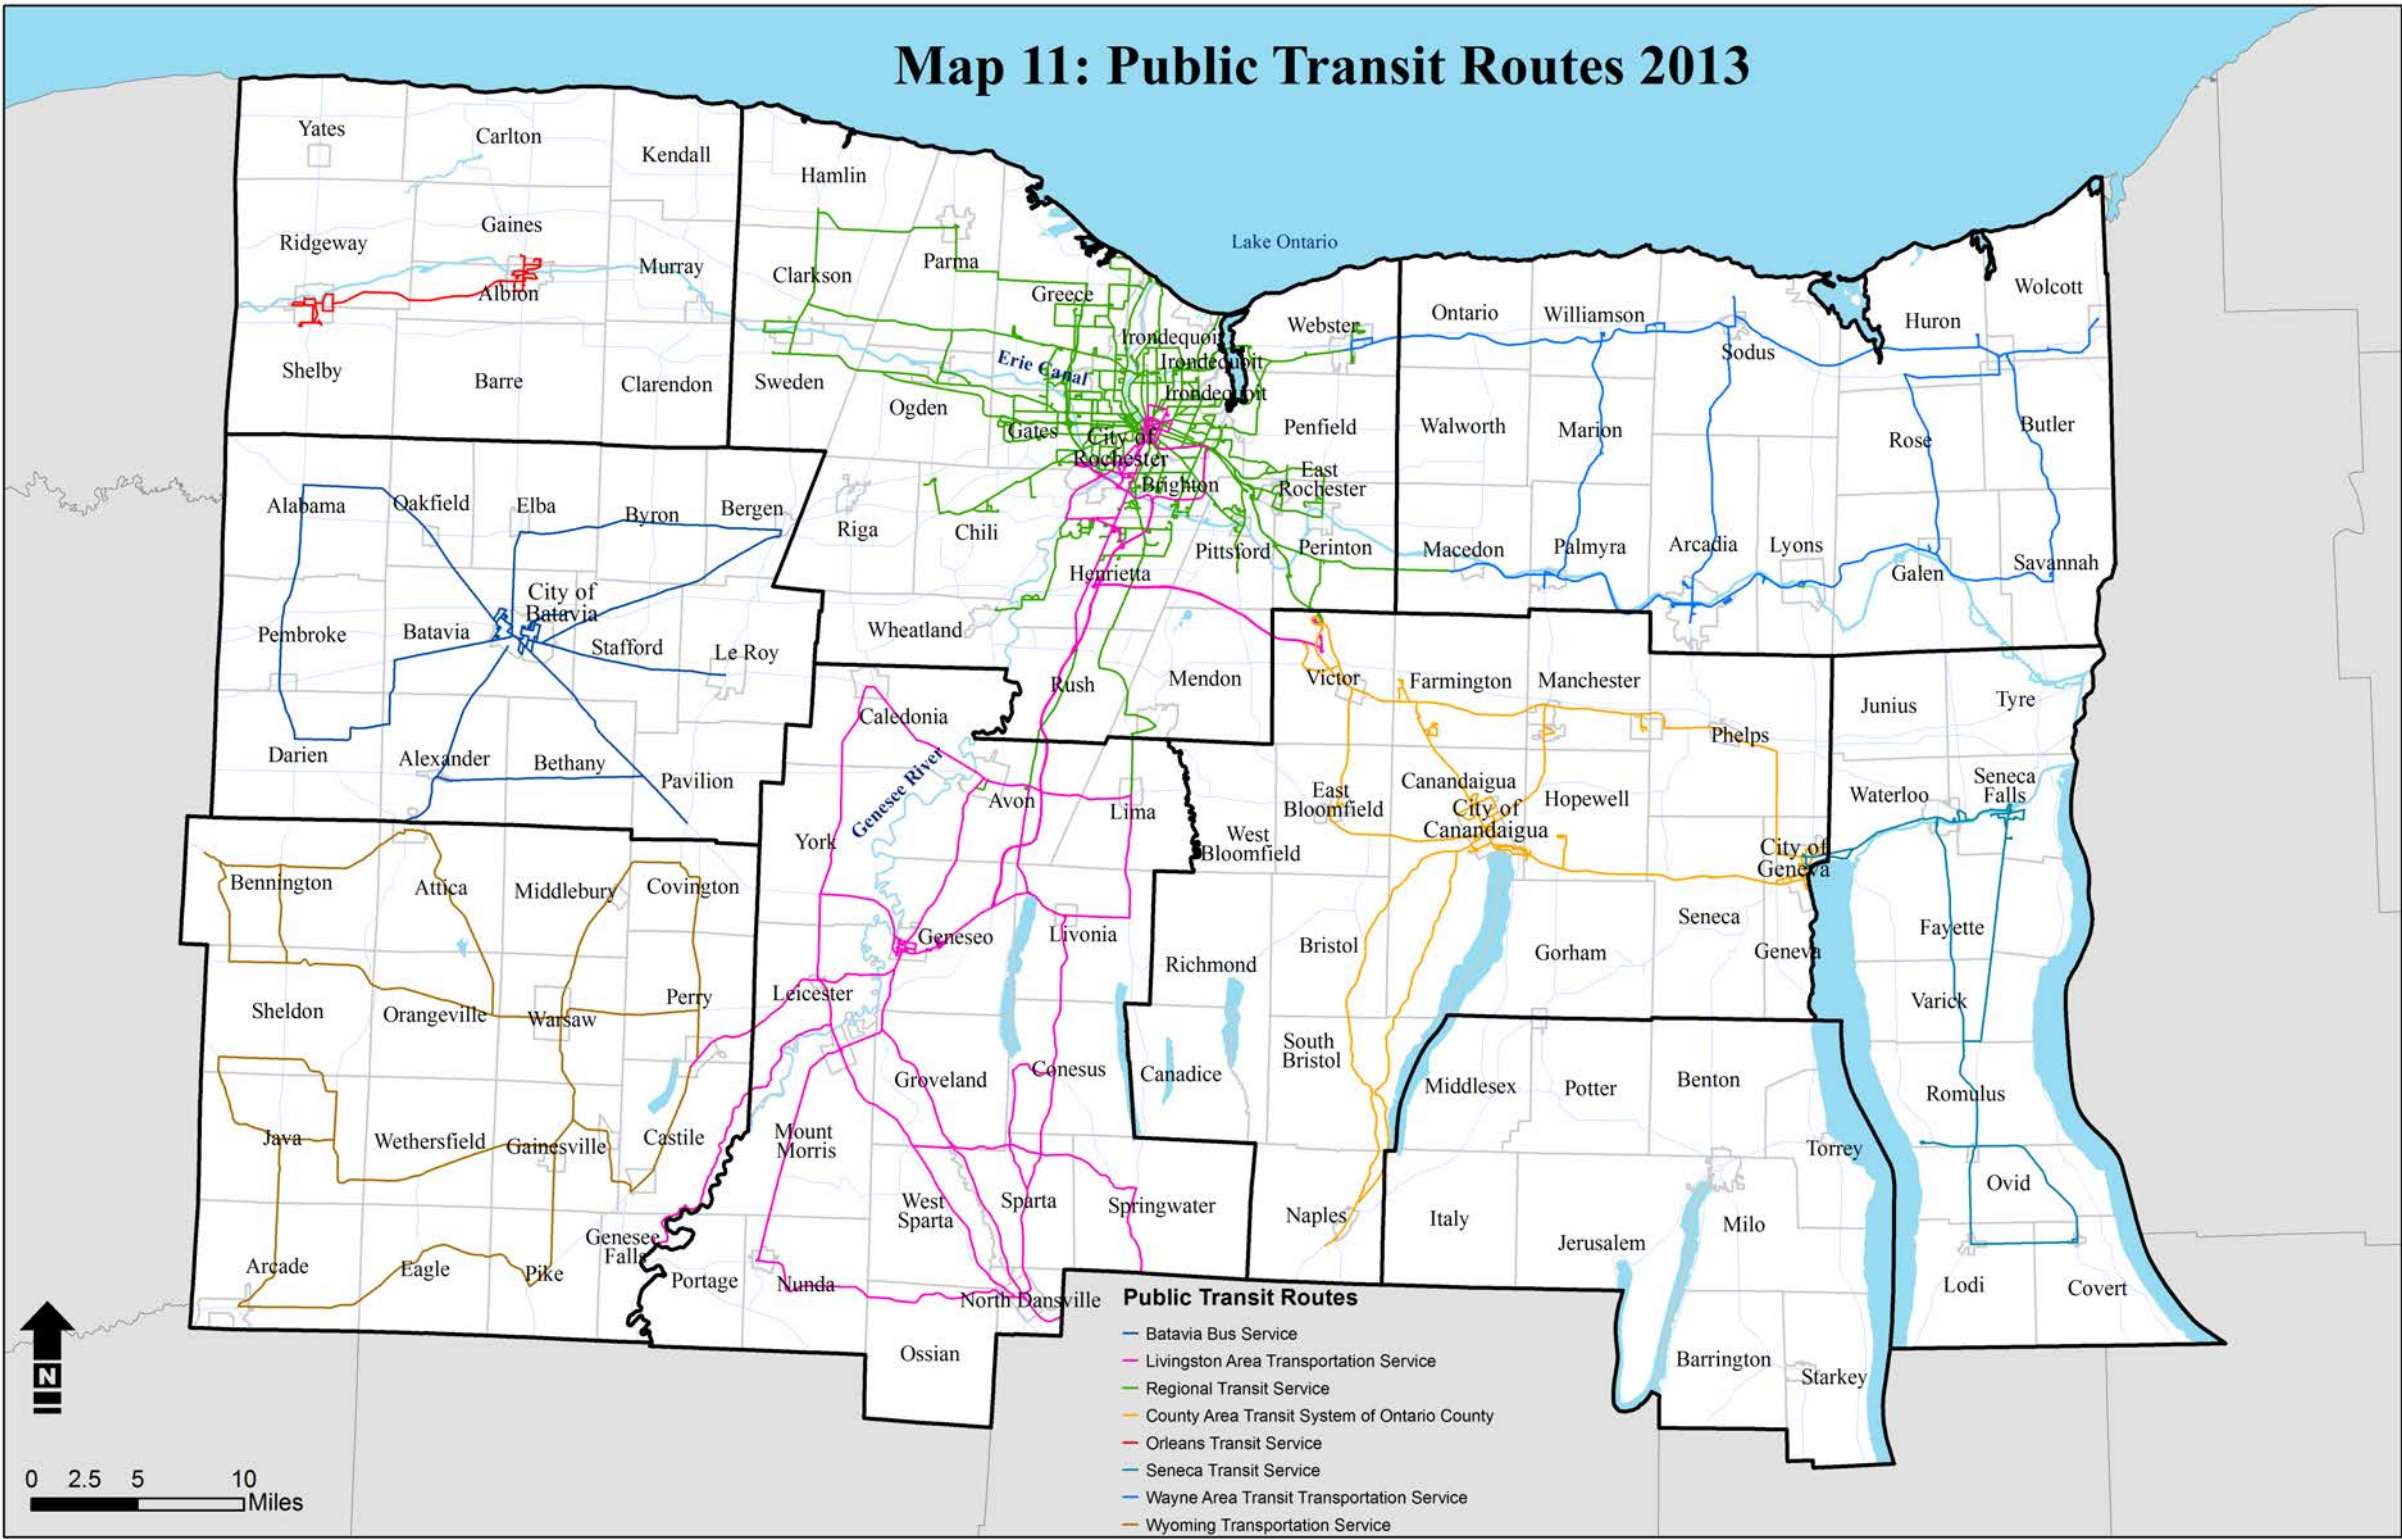

Transportation

Transportation Definitions

Regional Transit¹

Annual Passenger Trips (unlinked): the number of passengers who boarded a public transportation vehicle in the given year. Passengers are counted each time they board a vehicle, the initial boarding and each transfer to another vehicle count as separate trips.

Peak Fleet Size: the number of public transportation vehicles actually operated in periods of maximum service.

Annual Passenger Miles: the cumulative sum of the distances ridden by each passenger in a given year.

Commute to Work

Commute to Work: Method of transportation utilized to travel from home to work.

Journey to Work

Journey to Work: Location of employment, by County, based upon county of residence.

Travel Time

Travel Time: Length of commute to work by municipality of residence.

Vehicle Registrations in Force²

Vehicle Registrations in Force: the number of vehicles, by type of vehicle, with active registrations on record in New York State.

Accident Statistics²

Fatal Accidents: accidents in which one or more vehicle occupants, regardless of their position in a vehicle, sustained fatal injuries.

Personal Injury Accidents: accidents in which one or more vehicle occupants, regardless of their position in a vehicle, sustained injuries.

Property Damage Accidents: accidents in which at least one individual has sustained property damage greater than \$1,000.

Total Reportable Accidents: total number of accidents that have been reported to the police.

Deaths: total number of deaths resulting from fatal accidents.

Injuries: total number of those injured within the vehicle, pedestrians, bicyclists, and non-vehicle injuries, but excludes deaths.

Marine Law Enforcement³

Total Vessel Hours: total hours of on-water Marine Law Enforcement patrols.

Total Marine Law Enforcement Hours: total hours of Marine Law Enforcement patrol, on and off-water.

¹Definitions from Rochester Genesee Regional Transportation Authority and the Ontario County Transportation Office

²Definitions from New York State Department of Motor Vehicles

³Definitions from New York State Office of Parks, Recreation and Historic Preservation

The Economy section of the *Atlas* includes data from a variety of sources related to the economy within the nine-county Genesee-Finger Lakes Region, including employment, establishments, manufacturing, and exports. The following tables, maps, and charts are included within the economy section:

- Employment by Industry 2000, 2005, 2011
- Wages by Industry 2000, 2005, 2011
- Personal Income 1980-2010
- Establishments 2000, 2005, 2011
- Manufacturers 2000, 2005, 2011
- Industrial Sites 2013
- Exports 2010/2011
- Sales Tax by Industry 2009-2011
- Annual Sales Tax 2006-2011
- Labor Force 2000, 2005, 2010, 2011
- Employment/Unemployment

Historically, employment within the Region has been dominated by three major employers: Kodak, Xerox and Bausch & Lomb. Over the past few decades the importance of these three major employers has diminished, but the Region's emphasis on technology and innovation still remains.

The three largest employment sectors within the Region in 2011 were: health care and social assistance, manufacturing, and retail trade.

While manufacturing still remains one of the top three sectors in employment within the Region, it has been experiencing a shift. The number of manufacturing establishments has declined from 1,608 in the year 2000 to 1,491 in the year 2011. Additionally the number of manufacturing establishments employing 100 people or more has declined from 168 in the year 2000 to 136 in the year 2011.

Unemployment within the Region has declined from 2010, where it was 8.1 percent to 7.7 percent as of 2011. While this is trending in the positive direction it is still substantially higher than the level within the year 2000, which was 3.7 percent.

The Economic Development Priorities map, found within this section, illustrates the locations of the economic development priority projects that each county identified for the Comprehensive Economic Development Strategy (CEDS). The CEDS is developed by the Genesee/Finger Lakes Regional Planning Council for the United States Department of Commerce Economic Development Administration and serves as the economic development strategy for the Genesee-Finger Lakes Regional Economic Development District.

The CEDS provides an overview of the District's economic trends, economic development programs, economic development goals, and identifies economic development priority projects. Due to the large number of projects, additional project details were not included within this section, none the less the map helps to showcase the areas and locations where future development is targeted. Of course, with the economy rapidly changing and the needs of businesses constantly in flux the identified projects may change in the future, along with the emergence of new projects. Map 14: Comprehensive Economic Development Strategy Economic Development Priorities 2013 on page 104 illustrates the identified priority projects for the Region as of 2013.

One limitation of the section is the availability of the export data only on a region-wide level. Despite this limitation the export data (along with the freight data from the Transportation Section) provides insight into the types of products being exported from the Region and the top destinations.

Town data for all Economy tables, where applicable, includes Village data.

Economy Definitions

Establishments/Industry/Manufacturers¹

Establishments: a single physical location where business is conducted or services of industrial operations are performed

Industry: the industry categories are those used in the North American Industry Classification System (NAICS).

Manufacturers: an establishment that is classified as “manufacturing” in the NAICS.

Sales Tax

Taxable Sales by Industry: amount of money spent on goods that can be taxed by the state government by Industry for identified period. Totals do not include taxes generated by residential energy; local clothing sales; qualified motor and diesel fuel sales; or sales to Qualified Empire Zone Enterprises.

Taxable Sales and purchases: amount of money spent on goods that can be taxed by the state government for identified period.

Wages by Industry¹

Wages by Industry: total annual wages and average annual wages per industry, classified by NAICS code.

Personal Income²

Personal Income: all money income during the year including all earnings, dividends, transfers, etc.

Per Capita Personal Income: total income divided by the total population of a county.

Earnings by Place of Work: wage and salary disbursements + other labor income + proprietors’ income (farm earnings proprietors’ income + non-farm earnings proprietors’ income).

Personal Contributions for Social Insurance: donations/deductions going toward social security, hospital insurance, Medicare, unemployment insurance, etc.

Adjustment for Residence: an adjustment accounting for those who live in one county but are employed in another and for border workers (this is based on their total income less personal contributions for social insurance).

Dividends, Interest, and Rent: all income earned via stock holdings, mutual fund shares, or interest on those, along with any money taken from a border or lodgers, or rental from a store, building, etc.

Transfer Payments: money given to individuals by businesses and the government when the recipients provide no services, these include social security, worker compensation benefits, and other insurance and benefit programs.

Wage and Salary Disbursements: all money paid to employees via salaries and wages only, which include bonuses, tips, commissions, and pensions.

Other Labor Income: includes employer contributions to privately administered pension and welfare funds, employer contributions to government employee retirement plans, and a “miscellaneous” category.

Proprietors’ Income: all net income (receipts less expenses) of the self-employed.

Earnings: all wage and salary income during the year before deductions, all net income (receipts less expenses) of farm and non-farm self-employed.

Farm Earnings: earnings of those designated “farm” housing units.

Non-Farm Earnings: earnings of those housing units designated as “non-farm

Private Earnings: all wage and salary disbursements, further categorized by industry.

Labor Force Statistics³

Civilian Labor Force: the sum of employed and unemployed. This number does not include volunteers and those serving in the Armed Forces.

Employed: a civilian 16 years old or older who, during the week of the Census, worked a job or who held a job but was absent from work. This data counts the number of employed people, a person working more than one job is only counted as one employed person.

Unemployed: a civilian 16 years old or older who, during the week of the Census, did not hold a job, were looking for work, and were available to accept a job if one was offered to them.

Government Definitions

Real Property

Population: total number of residents as of the 2010 Census.

Land Area (Square Miles): the amount of dry land or land temporarily or partially covered by water.

Full Value: actual taxable valuation of real property on tax rolls (determined by applying the final equalization rates for each city and town to the appropriate portion of the county rolls).

Expenditures

Current Operations: total expenditures for operating costs, including personal services, employee benefits and contractual expenditures.

Personal Services: total expenditures for salaries and wages.

Employee Benefits: includes retirement, police and fire retirement; pension funds, social security; worker's compensation, life insurance, disability insurance, hospital and medical insurance, etc.

Debt Service: total expenditures for principal and interest on bonds and notes.

Principal: principal payments for the redemption of bonds and notes.

Interest: interest payments on bonds and notes.

Equipment and Capital Outlay: expenditures incurred for equipment purchases and the construction, improvement, and acquisition of fixed assets (public buildings, real property, streets, bridges, sewers, etc.)

Total Expenses: total expenditures for government includes: Personal Services, Employee Benefits, Contractual Expenditures, Debt Service, and Equipment and Capital Outlay.

General Government: expenditures for executive, legislative, judicial, and financial operations.

Education: contribution to community college, education of disabled students, and miscellaneous educational expenses.

Police: expenditures for police services, sheriff, jail, rehabilitation services, probation, etc.

Fire: expenditures for fire prevention and protection.

Public Safety: expenditures for public safety non included under police or fire, such as traffic control, animal control, building inspection, civil defense, examining boards, etc.

Transportation: total amount of expenditures for highway and transportation services.

Health: expenditures for own/county hospitals and nursing homes, public health administration, mental health programs, addiction control services, etc.

Economic Assistance: expenditures to promote the economic welfare of the municipality, including expenditures for social services administration and programs.

Culture and Recreation: expenditures for parks, youth and adult recreation programs, recreation facilities, libraries, museums, and other cultural and recreational activities.

Utilities/Sanitation: expenditures for the operation and administration of water and sewer systems.

Revenues

Real Property Taxes and Assessments: total amount of revenue raised from real property taxes and assessments. Real Property Taxes and Assessments may include the following subcategories: real property taxes and special assessments.

Other Tax Items: total amount of revenue raised from other real property tax items. This subcategory may include the following subcategories: STAR payments, payments in lieu of taxes, interest and penalties, gain from the sale of tax-acquired property, and other miscellaneous tax items

Sales and use Tax: total amount of revenue derived from sales and use taxes of tangible personal property and/or the consumption of goods and/or services.

Other Non-Property Taxes: total amount of revenues raised through the imposition of all other non-property taxes.

Charges for Services: total amount of revenues derived from fees/charges/recoveries associated with a local government providing a specific service to an individual.

Charges to Other Governments: Revenues derived from charges for services rendered to other governments.

Use and Sale of Property: total amount of revenues from the use and sale of property. Use and Sale of Property may include the following subcategories: interest and earnings, sale of property, and rental of property.

Other Local Revenues: total amount of other revenues from other sources.

State Aid: total amount of revenues derived from State Aid.

Federal Aid: total amount of revenues derived from the federal government.

Proceeds of Debt: includes financial resources provided primarily by the issuance of general long-term liabilities, including proceeds from term bonds, serial bonds, statutory installment bonds, advance refunding bonds, bond anticipation notes, capital notes, installment purchase debt, and other long-term debt.

Definitions from New York State Office of the State Comptroller

Government

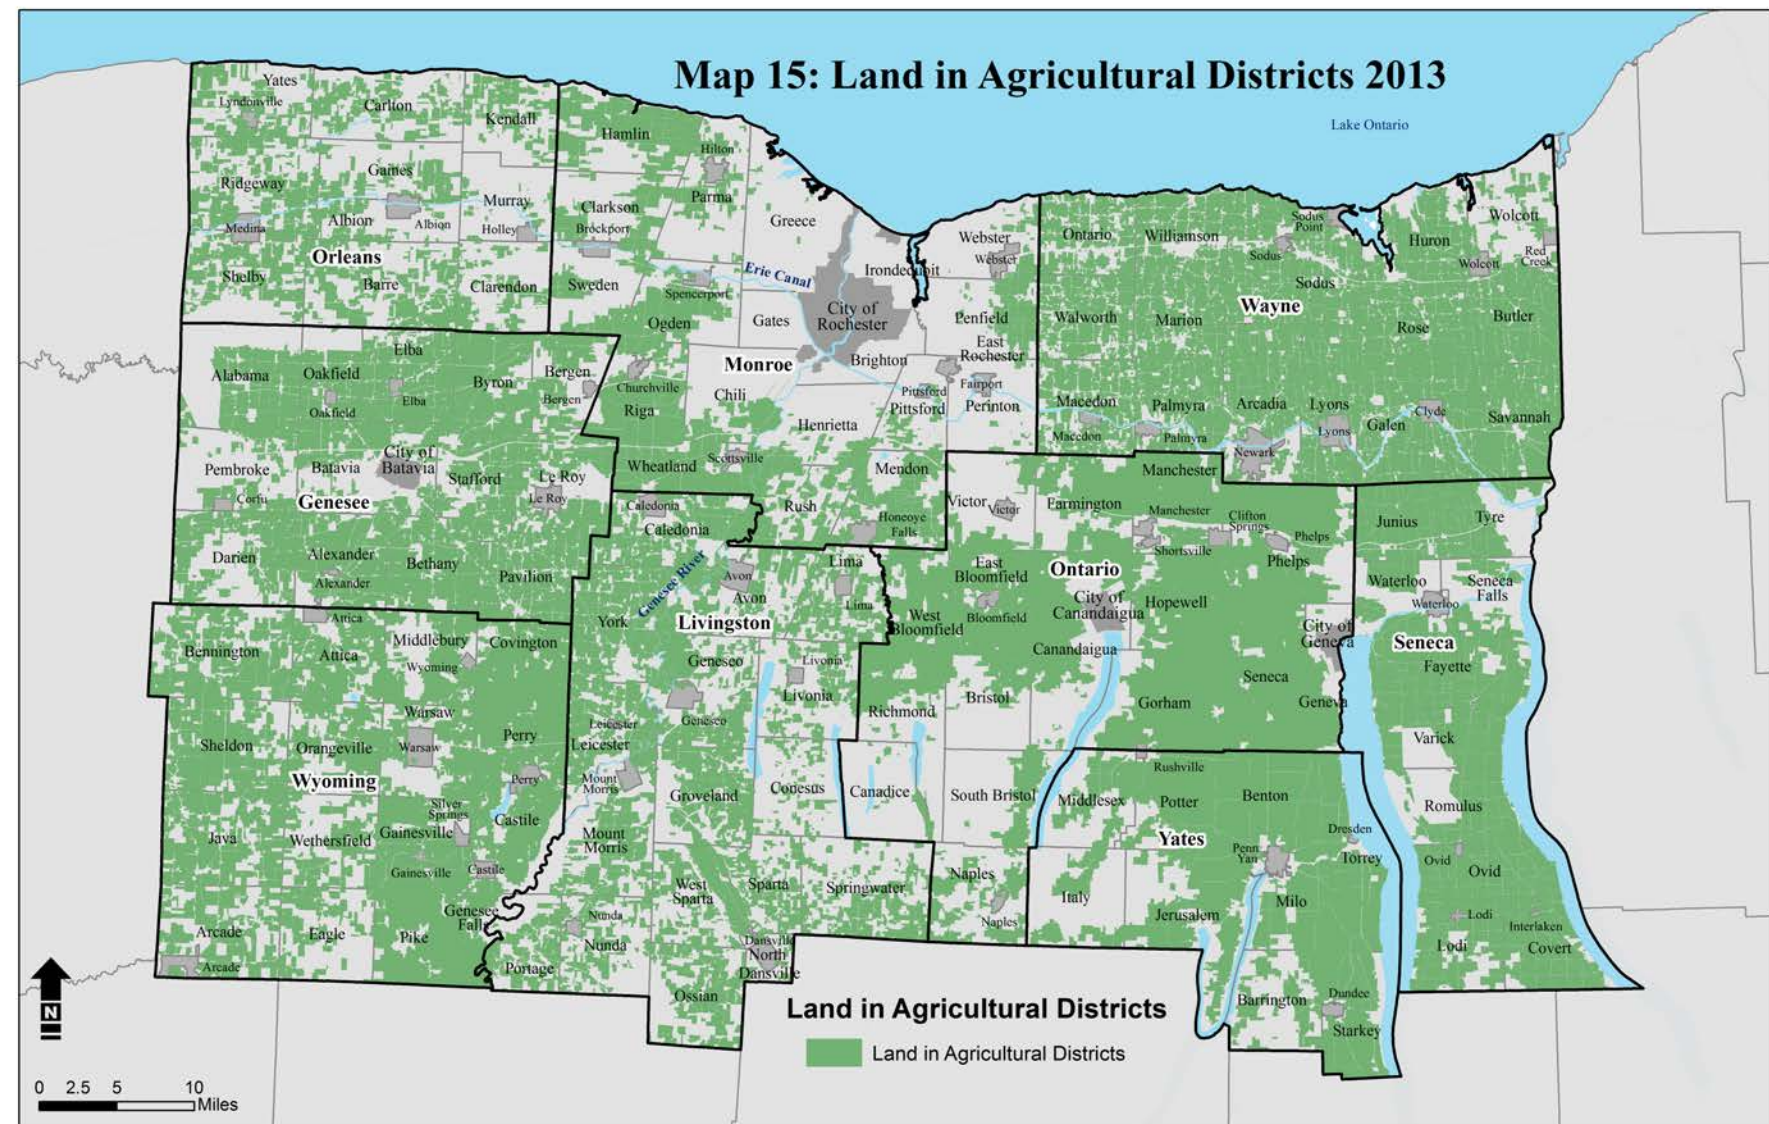

The Agriculture section of the *Atlas* includes data on farms, live-stock, as well as a variety of crops. The following tables/maps/charts are included within the section:

- Agriculture Districts
- Land in Farms 1978-2007
- Number of Farms by Size 1978-2007
- Animals/Livestock 1987-2007
- Fruits & Berries 1987-2007
- Dairy 1987-2007
- Grains & Field Crops 1987-2007
- Nursery & Greenhouse Crops 1987-2007
- Vegetables 1987-2007

Agriculture is a major industry within the Region producing a significant economic impact for many of the nine-counties. The Region generates a variety of different agricultural products, with considerable output in the areas of dairy, apples, and grapes. As a result there is a natural connection to many food processing and agri-businesses including: Muller Quaker Dairy, Alpina Foods, Constellation Brands, Motts, Barilla, as well as the many wineries located throughout the nine-counties.

A trend occurring within the agriculture sector in the Region is the decline in the number of farms, which has gone from 7,348 in the year 1978 to 6,417 as of 2007. Despite a decline of 12.7 percent in the number of farms, the number of farm acres has only declined 8.0 percent indicating that much of the land from farms that are no longer in business is not apart of other larger farms. This is evident within the data as the number of farms with 1,000 acres or more grew from 181 in 1978 to 318 in 2007, within the nine-county Genesee-Finger Lakes Region.

Map 15: Land in Agricultural Districts 2013, shown to the right, illustrates the regional land within agricultural districts.

N/A: Data Not Available

Agriculture Definitions

Farm: any place from which \$1,000 or more of agriculture products were produced and sold, or normally would have been sold, during the census year.

Agriculture District¹: areas of farmland that have been designated to receive certain benefits to encourage the continued agricultural use of the land and discourage conversion to other land uses. Once included in the program, land remains part of an Agriculture District, subject to review every eight years.

¹New York State Agriculture and Markets Law authorizes this program and inclusion of land in Agriculture Districts is initiated by land owners and is subject to county review, state certification, and county adoption.

Definitions from United States Department of Agriculture and the United Status Census Bureau

The Education section of the *Atlas* includes data related to education within the Genesee-Finger Lakes Region, including: students, faculty, colleges, and universities. The following tables, charts, and maps are included within the section:

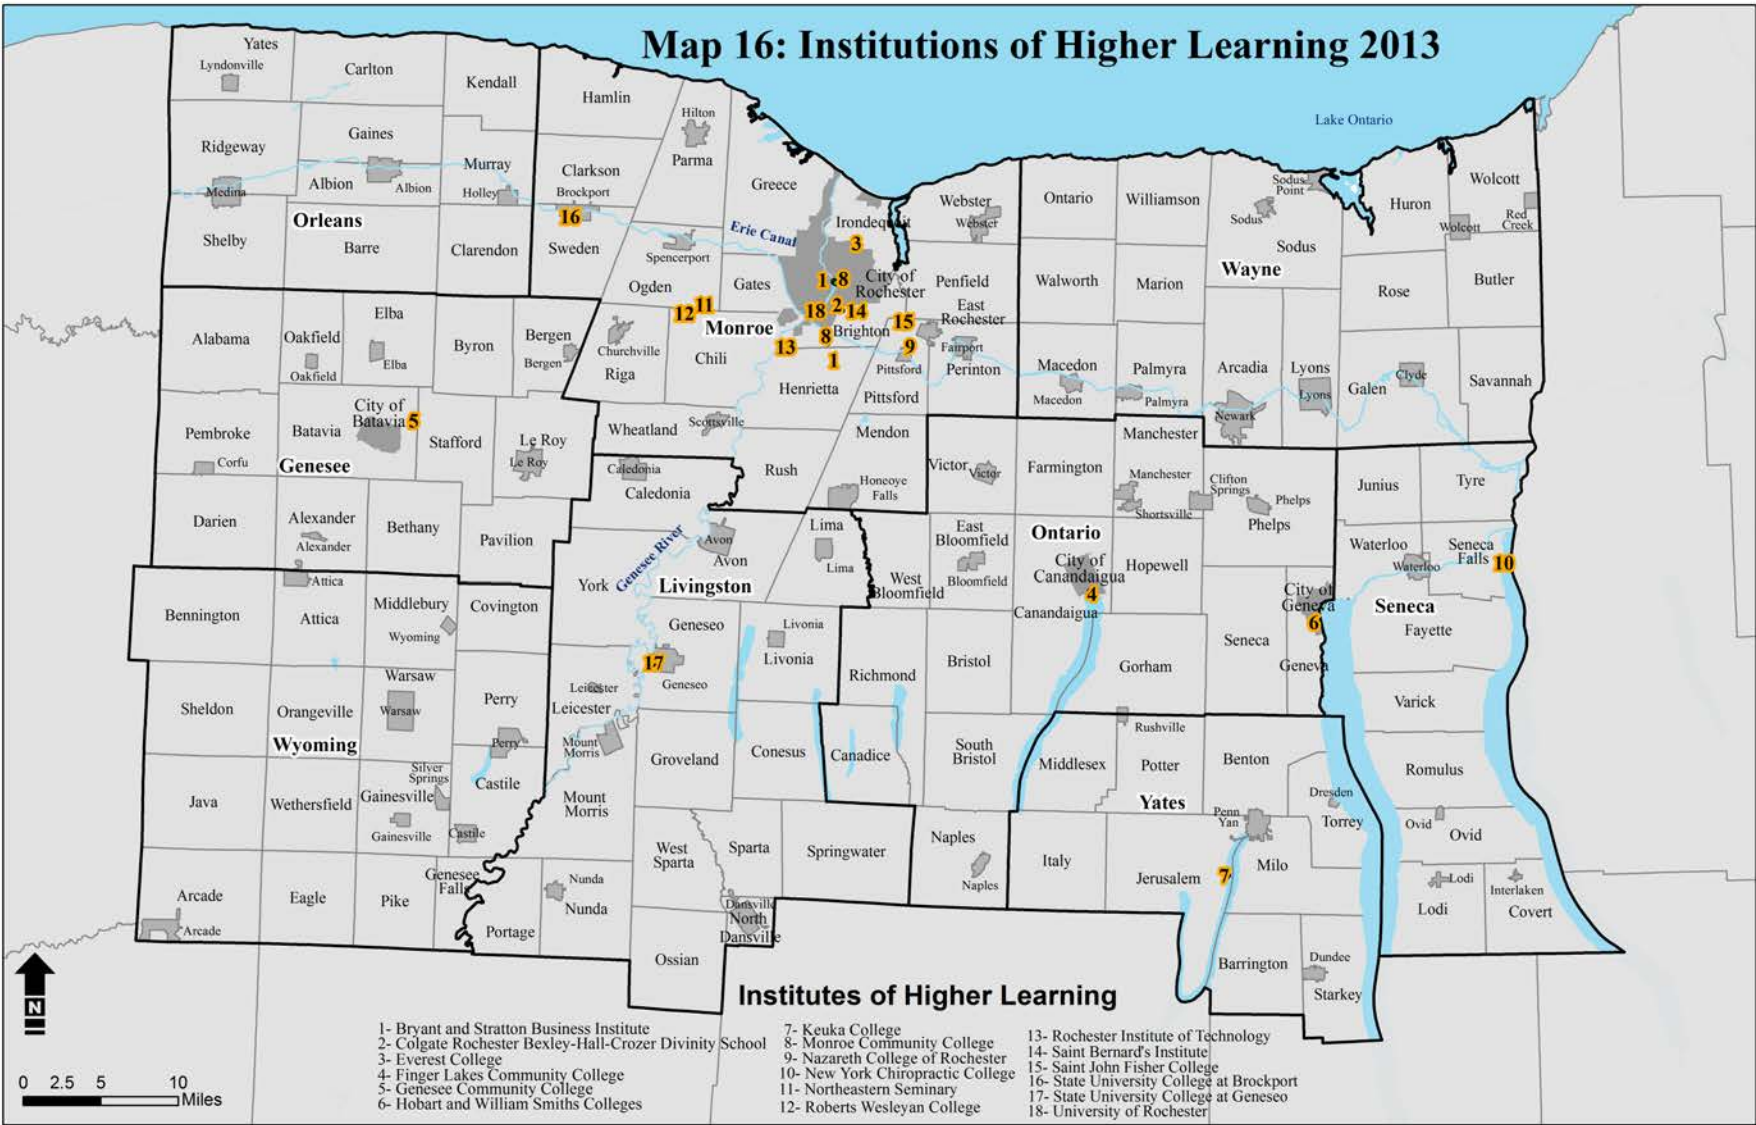

- Institutions for Higher Learning
- Non-Public Schools
- Public School Students 2010-2011
- Public School Faculty 2010-2011
- Public School Expenditures 2010-2011

There are a total of 18 institutions of higher learning located within the Region, with a total enrollment of 88,418 students as of the 2012-2013 academic year. These colleges and universities help to educate the future workforce in a variety of degree programs and certificate training programs. Map 16: Institutions of Higher Learning 2013, shown at right, illustrates the colleges and universities located within the Genesee-Finger Lakes Region.

There are a total of 70 public school districts within the nine-counties, not including several school districts which originate outside the Region and include a small part of the Genesee-Finger Lakes Region. Public school districts, within the Region, range from Wyoming Central School District with an enrollment of 167 to the Rochester City School District with an enrollment of 33,260, both as of the 2010-2011 school year.

The wide discrepancies regarding enrollment, services, and student demographics result in the inability to compare data across school districts. As a result data within this section should be used to provide a snapshot of each public school district for the school year 2010-2011.

Within the nine-county Region there are a variety of other non-public options for schooling, many of which are religiously affiliated. As of the 2012-2013 school year there were a total of 151 non-public schools with a total enrollment of 18,891.

Education Definitions

Students

Enrollment: total enrolled population (total number of students in kindergarten through grade 12 and in classes for disabled students.

Enrollment White: percentage of enrolled White students.

Enrollment Black: percentage of enrolled Black students.

Enrollment Asian: percentage of enrolled Asian students.

Enrollment Hispanic: percentage of enrolled Hispanic students.

Enrollment Other: percentage of enrolled non-white, non-black, non-Asian students, including American Indian, and Alaskan Native.

Annual Attendance Rate: average daily attendance divided by total enrollment.

Limited English Proficiency Rate: number of students classified as having limited English proficiency divided by total student enrollment.

Dropout Rate: number of student dropouts divided by the total student enrollment in grades 9-12, including the portion of ungraded secondary enrollment that can be attributed to grades 9-12. A dropout is defined as any pupil who left school before graduation for any reason except death and who did not enter another school or high school equivalency preparation program.

Suspension Rate: number of students who were suspended for at least one day during the school year divided by the total enrollment.

Poverty Index: percentage of children 5-17 years of age in families living below the poverty level.

Regents Diplomas Received: number of high school graduates who earned both local and Regents diplomas divided by the total number of graduates.

Free/Reduced Lunch: number of students in full-day kindergarten through grade 6 participating in the free-and-reduced lunch program divided by total number of enrolled students in full-day kindergarten through grade 6.

Pupil/Teacher Ratio: total number of enrolled students divided by the number of full-and part-time public school classroom teachers.

Pupils with Disabilities: number of school-age (ages 6-21) residents in the district who are classified as having a disability, including those attending public and nonpublic schools and those receiving only home instruction.

Faculty

Annual Teacher Turnover Rate: number of public school teachers who were employed by the district one year but not the next, divided by the total number of public school teachers employed the first year.

Median Salary: median salary of full-time public school teachers.

Median Years: median years of experience of full-time public school teachers.

Average Class Size: total registration in each class divided by the number of classes with registration. (Grades 8 and 10 exclude remedial classes.)

Expenditures

Instruction Only: expenditures for instruction (excluding fringe benefits for instructional personnel).

Fringe Benefits: expenditures for fringe benefits for instructional personnel.

Total Instruction: total expenditures of instruction only and fringe benefits.

Central Administration: expenditures for central administration, including chief school officer, business office, purchasing, personnel, public information, and fees for fiscal agents.

Transportation: expenditures for transportation.

Debt Service: expenditures for principal and interest on approved building projects, transportation issues, and other debt instruments, both short-term and long-term.

Miscellaneous: all other expenditures, such as operation and maintenance, board of education, community services, and inter-fund transfers.

Total Expenditures: total expenditures for kindergarten through grade 12 for classroom instruction, including students with disabilities in a general education setting, but excluding Special Education, plus a pro-ration of building-level administrative and instructional support expenditures.

Per Pupil Unit: total expenditures of the school district divided by the total number of students enrolled.

Definitions from the New York State Department of Education

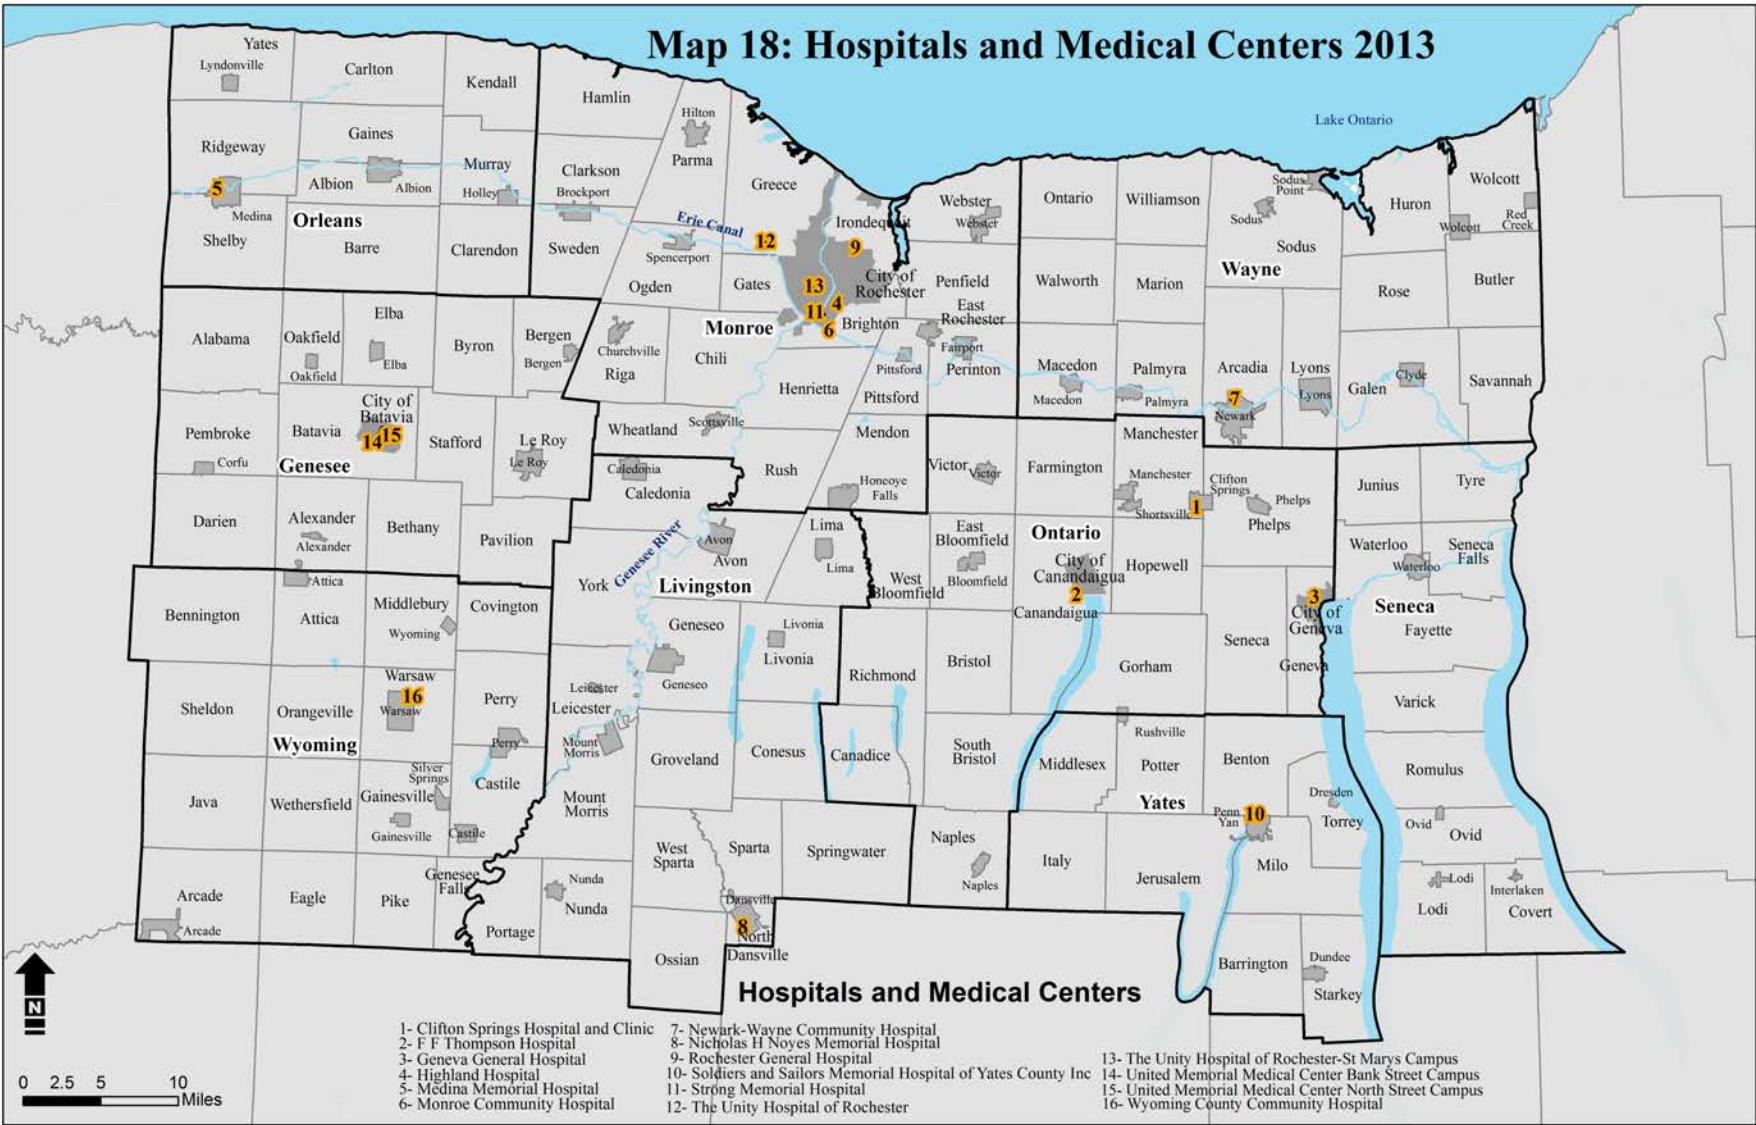

The Health Section of the *Atlas* includes data related to births; deaths; hospitals/hospitalizations; and disease. The following charts, tables, and maps are included within the section:

- Hospitals and Medical Centers
- Perinatal Health 2000, 2005, 2009
- Hospitalizations 2000, 2005, 2009
- Mortality 2000, 2005, 2009
- Morbidity 2000, 2005, 2009

There are a total of 16 hospitals and medical centers located within the Region providing health care, medical research, and related services. These are shown to the right within Map 18: Hospitals and Medical Centers 2013.

One health initiative underway within the Genesee-Finger Lakes Region is the Finger Lakes Health Collaborative. The Finger Lakes Health Collaborative aims to develop innovative health care programs that can keep costs under control, improve health, and expand care to populations that are not currently receiving it. The focus of the program is on reducing the number of people with high-blood pressure, which will help to lower the rates of stroke, heart attacks, and heart diseases.

The data within this section includes both a number and rate corresponding to population. Rates may be for a population of 1,000, 10,000 or 100,000, depending on the table. The notes for each table provide more detail regarding the rate.

*Rate per 100,000 population

^AIDS cases data are from the NYS AIDS Case Surveillance Registry. Data is based on year of diagnosis and excludes prison inmates.

Health Definitions

Hospitalizations

Asthma: a respiratory disorder with recurrent attacks of breathing difficulty.

Gastroenteritis: infection of irritation of the stomach and intestines.

Otitis Media: infection of the middle ear cavity.

Note: the Asthma, Gastroenteritis, and Otitis Media hospitalization data is limited to children age four years and younger.

Perinatal Health

Perinatal: the time just before, during, and immediately after birth

Pregnancy Rates: the total pregnancy rate is per 1,000 women aged 15-44, the age 10-14 and age 15-19 rates are per 1,000 women in each of these age ranges.

Births: the rate is live births per 1,000 population.

Low Birth Weight: births for children weighing less than 5.5 pounds, the rate is per 100 births.

Early Prenatal Care (1st Trimester): live births for which prenatal care began in the first trimester of the pregnancy, the rate is per 100 births.

Infant Deaths: deaths of children under 1 year of age, the rate is per 1,000 live births.

Neonatal Deaths: deaths of children under 28 days of age, the rate is per 1,000 live births.

Post neonatal Deaths: deaths of children age 28 days or older, but less than 1 year old, the rate is per 1,000 live births.

Spontaneous Fetal Deaths: deaths of a fetus at 20 weeks or more in a gestation period, the rate is per 1,000 births.

Definitions from New York State Department of Health.

Health

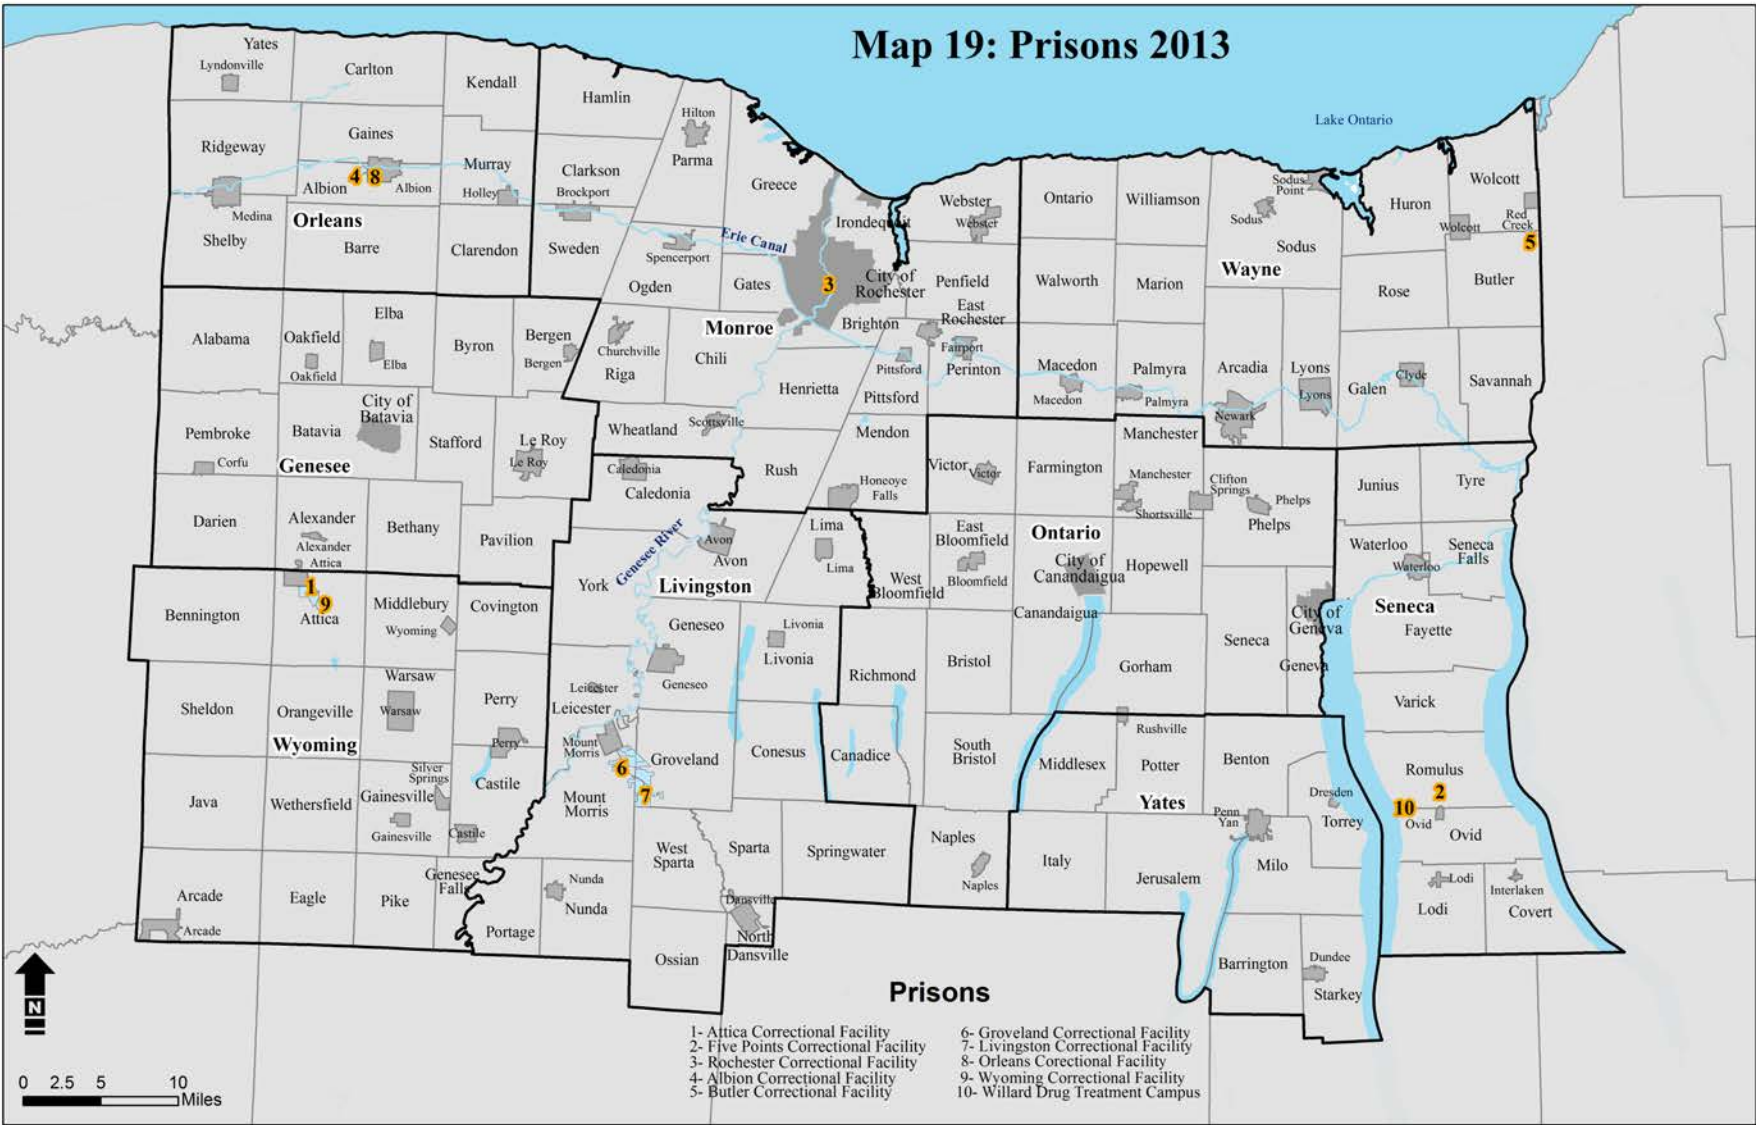

The Public Safety section of the *Atlas* includes data related to crime, fire, and prisons within the nine-county Genesee-Finger Lakes Region.

Tables, charts, and maps included within this section include:

- Prisons
- Fire Statistics 2000, 2005, 2010-2012
- Crime Statistics 1980-2010

Police and fire departments throughout the Region not only provide response to emergency situations, but also offer prevention and public awareness programs. Many municipalities within the Region do not have full-time public safety services and rely on volunteer fire departments and county sheriffs for patrol.

There are a total of 10 prisons and correctional institutions within the Genesee-Finger Lakes Region as of Fall 2013. The Butler Correctional Facility, located within Wayne County is schedule to close in July 2014, but its closure has already been delayed twice previously. Map 19: Prisons 2013, shown on the right, illustrates the location of these facilities within the Genesee-Finger Lakes Region.

Public Safety Definitions

Crime Statistics

Population: total population, as determined by the United States Census Bureau. Population Estimates were utilized for the years 1985, 1995, and 2005.

Index Total: total reported number of Index Crimes as determined by the Federal Bureau of Investigation, where Index Crimes are the violent crimes of murder, rape, robbery, and aggravated assault, and the property crimes of burglary, larceny, and motor vehicle theft.

Rate of Index Crimes per 100,000: number of index crimes in county multiplied by 100,000 and divided by the total county population.

Violent Crimes: total number of reported murders, rapes, robberies, and aggravated assaults.

Rate of Violent Crimes per 100,000: number of violent crimes in county multiplied by 100,000 and divided by the total county population.

Murders: number of reported murders.

Rapes: number of reported rapes and attempted rapes (excludes statutory rapes and other sex crimes).

Robberies: number of reported robberies and attempted robberies.

Aggravated Assaults: number of reported instances of aggravated assault, including attempted murder.

Property Crimes: total number of reported burglaries, larcenies, and motor vehicle thefts.

Rate of Property Crimes per 100,000: number of property crimes in county multiplied by 100,000 and divided by the total county population.

Burglaries: number of reported burglaries.

Larcenies: number of reported instances of larceny, excludes embezzlement, forgery, and bad checks.

Motor Vehicle Thefts: number of reported motor vehicle thefts and attempted motor vehicle thefts.

Total Arrests: total events with finger-printable offenses charged against an adult (aged 16 or older) or a juvenile offender (ages 13-15) who is tried as an adult.

Felony: an offense that may result in imprisonment for more than year.

Violent Felony: designated felony offenses that may result in extra sentencing upon conviction.

Drug Felony: defined felony offenses dealing with controlled substances and marijuana.

Other Felony: all non-violent and non-drug felony offenses (includes grand larceny, conspiracy, and fraud).

Misdemeanor: an offense that may result in a jail sentence between 15 days and one year (excludes traffic infractions).

Drug Misdemeanor: all misdemeanor offense dealing with controlled substances and marijuana.

DWI Misdemeanor: all misdemeanor offenses for Driving While Intoxicated.

Other Misdemeanor: all non-drug and non-DWI misdemeanor offenses (includes petty larceny, mischief, and offenses against public order).

Indictment: a written accusation by a grand jury, filed with a superior court, charging a person, or two or more persons jointly, with the commission of a crime or crimes.

Superior Court Informations (SCIs): an accusatory instrument used in felony cases in lieu of a grand jury indictment.

Percent Prosecuted in the Upper Courts: percentage of felony arrests that retained their felony status by reaching the upper courts (county court or Supreme Court) for disposition.

Total Convictions: total number of cases (felonies, misdemeanors, and lesser crimes) that resulted in guilt either by verdict or plea.

Conviction Rate: percentage of dispositions in a year that were convictions.

Total Incarcerations: all sentences that include some length of confinement in prison, jail, or jail plus a term of probation.

Incarceration Rate: percentage of convictions that result in a sentence of prison, jail, or jail plus a term of probation.

Prison: a sentence of one year or more in a state facility.

Jail: a sentence of less than one year in a local county of city facility.

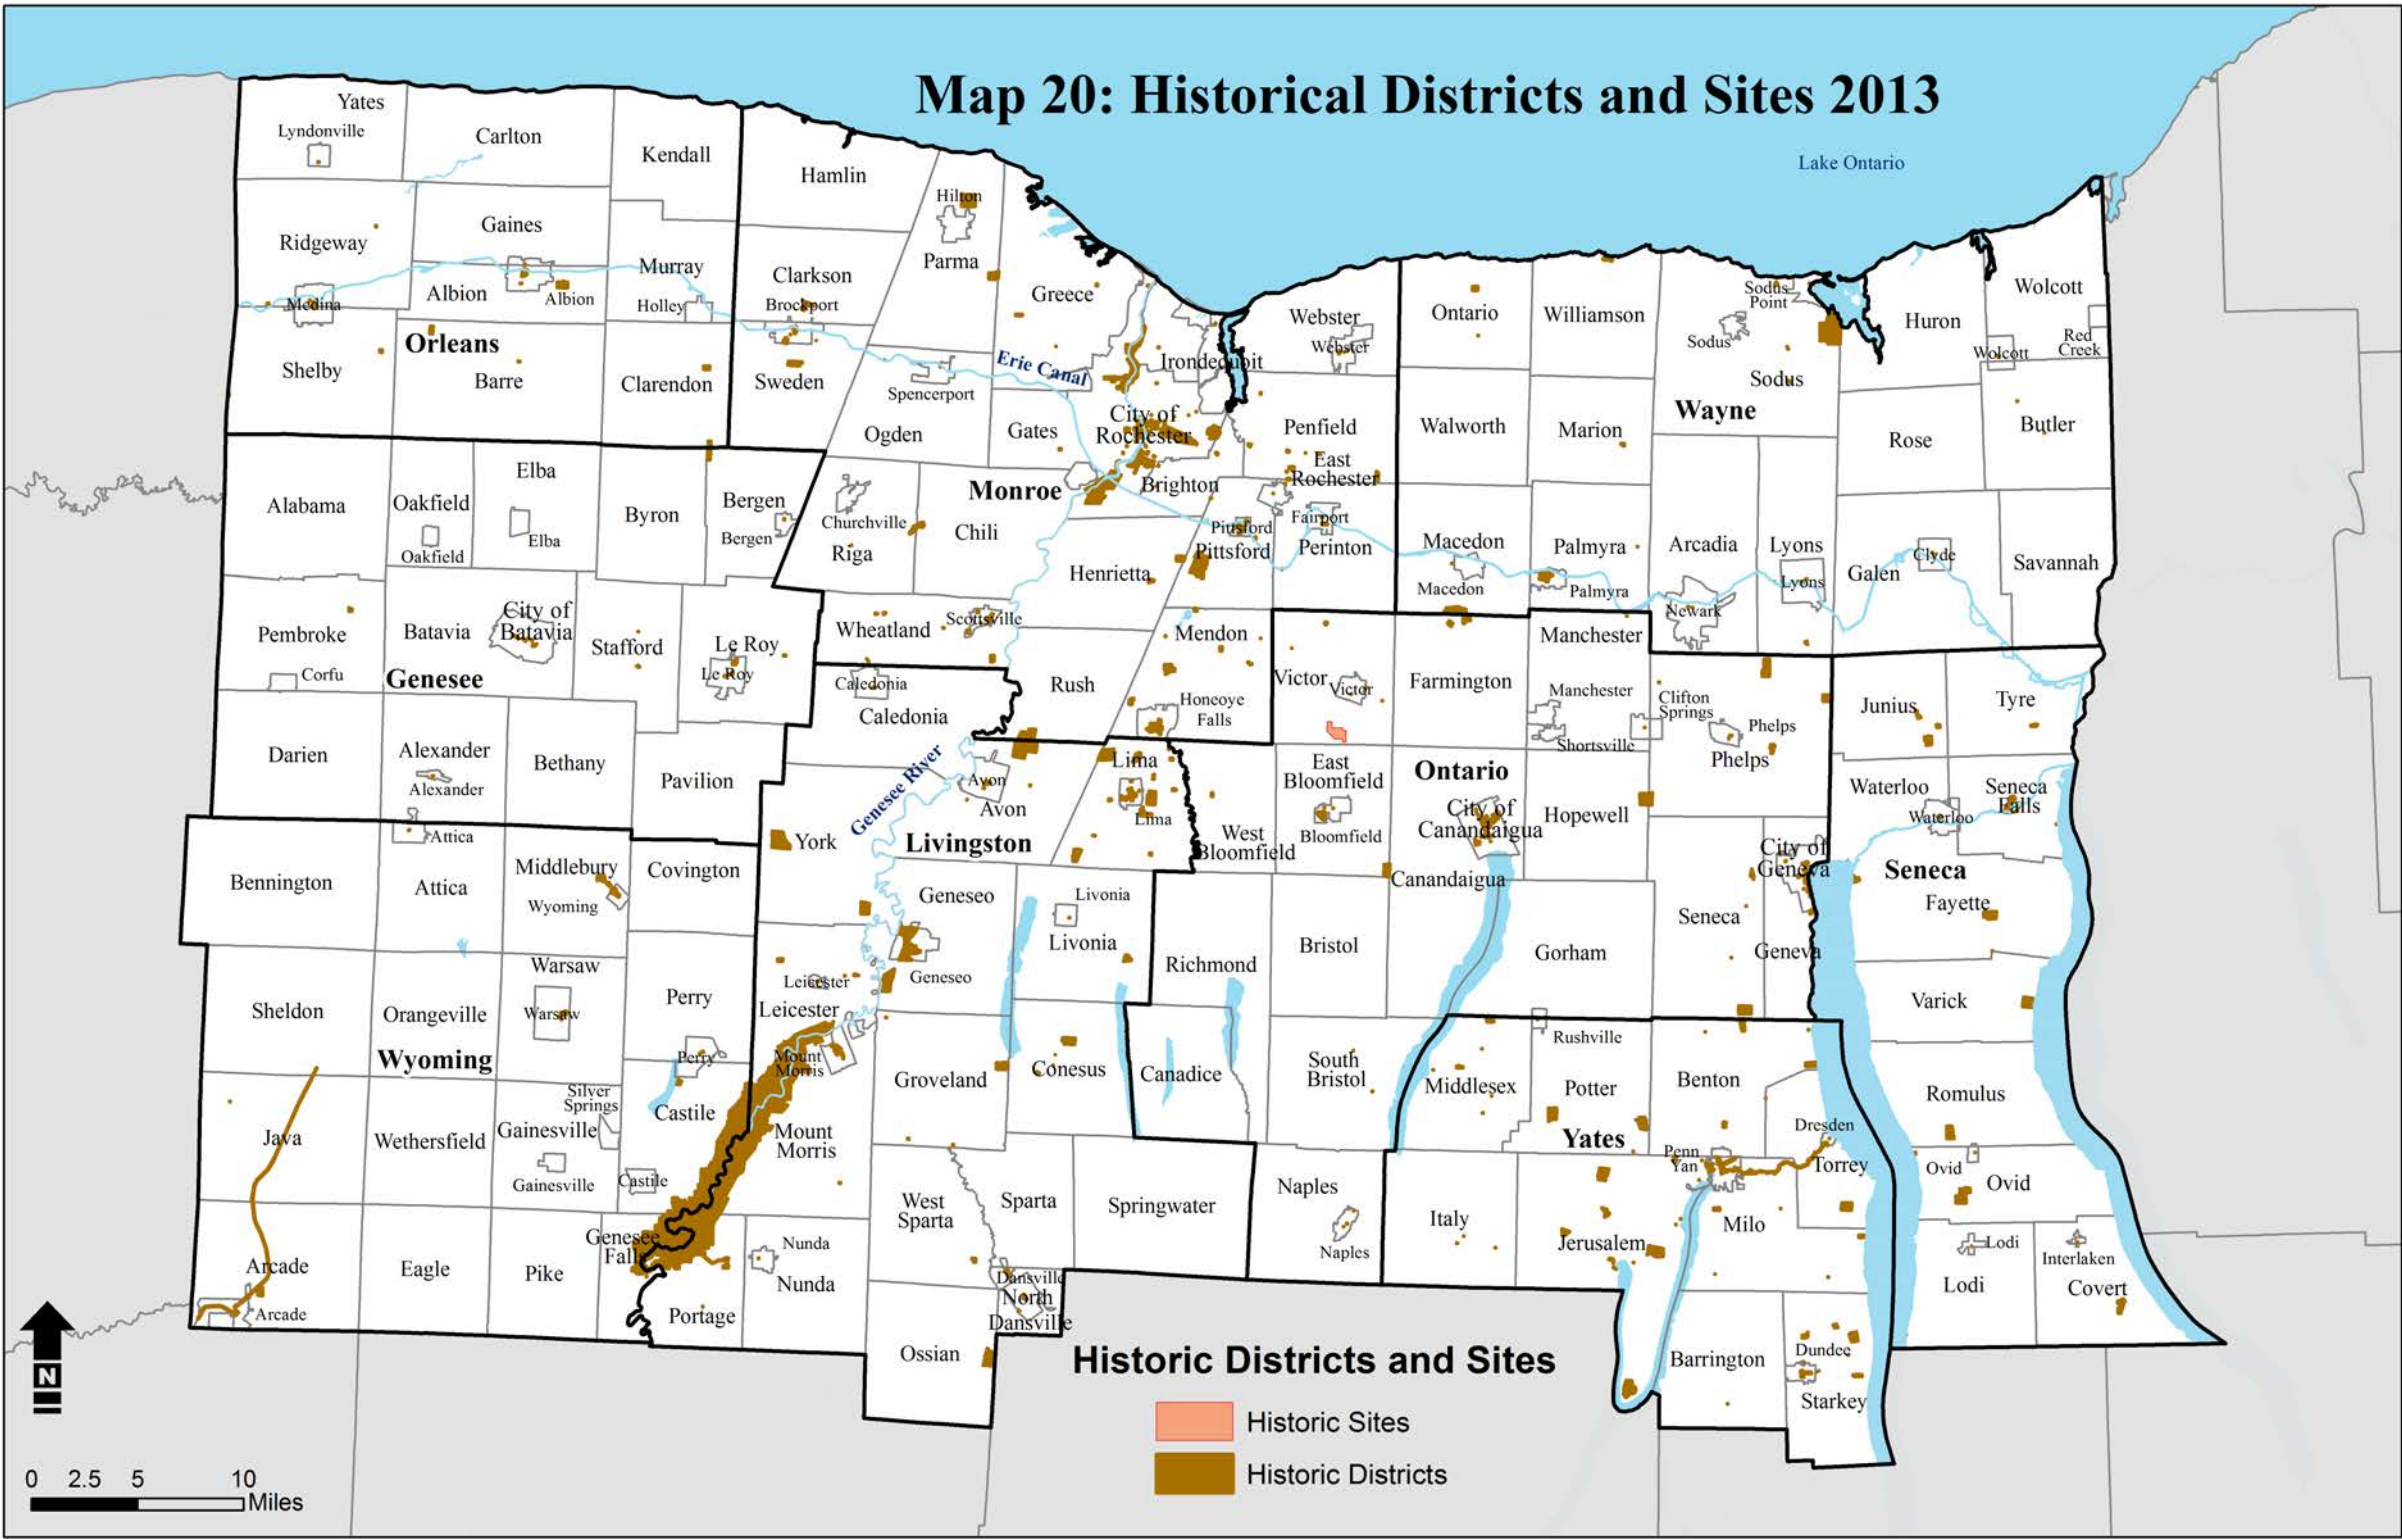

Jail & Probation: a sentence that entails both jail time and probation supervision.

Probation: a sentence that involves supervision by a county officer.

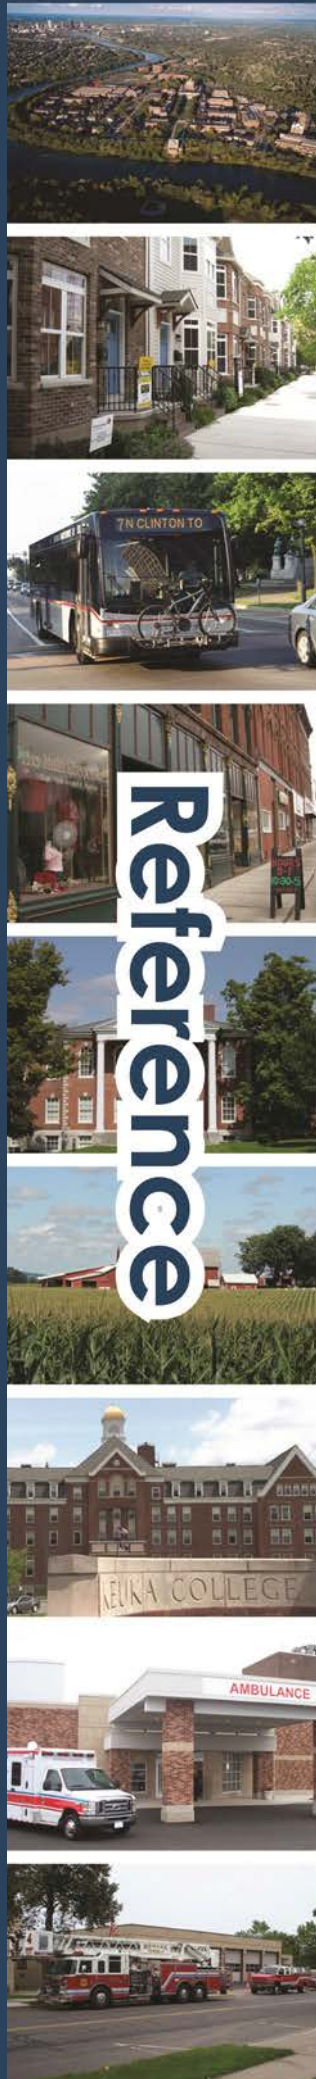

Fine: a sentence that involves paying a money penalty.

Other: includes such sanctions as condition discharge and unconditional discharge as well as unknown sentences.
