Prepared for the Genesee Transportation Council

2018 Regional Land Use Monitoring Report

June 2019

This report was prepared by the Genesee/Finger Lakes Regional Planning Council for the Genesee Transportation Council under the Unified Planning Work Program (Task # 4220).

Mission Statement

The Genesee/Finger Lakes Regional Planning Council (G/FLRPC) will identify, define, and inform its member counties of issues and opportunities critical to the physical, economic, and social health of the region. G/FLRPC provides forums for discussion, debate, and consensus building, and develops and implements a focused action plan with clearly defined outcomes, which include programs, personnel, and funding.

Abstract

This report provides information on the issuance of building permits in 2018 to identify areas of growth within the Genesee-Finger Lakes Region (G-FL Region) that might require transportation planning and service modifications. The G-FL Region is comprised of Genesee, Livingston, Monroe, Ontario, Orleans, Seneca, Wayne, Wyoming, and Yates Counties. The report analyzes the number of permits issued, total square footage, and total value for buildings for each municipality within the region as well as within the Metropolitan Planning Area (MPA). The MPA is comprised of Monroe County plus the adjacent developed areas of Livingston, Ontario, and Wayne counties. The analysis looks at the following categories and respective subcategories: "residential" (single-family, two-family, three or four-family, five-or-more family, mobile/manufactured homes); "industrial;" "commercial" (offices/banks, retail/service, service stations, hotels/motels); "community service" (hospitals/health facilities, schools/churches, public works/safety, utilities); and "not elsewhere classified."

Introduction

The Genesee Transportation Council (GTC) provides annual funding for the *Regional Land Use Monitoring Report (LUMR)* under its Unified Planning Work Program. The purpose of this report is to provide information for building permits by type, size, and value to identify areas of growth within the Genesee-Finger Lakes (G-FL) Region that may, as a result, require increased transportation planning and services.

The *Regional Land Use Monitoring Report* includes residential, industrial, commercial, and community service building permit data for all nine counties in the G-FL Region. This includes subdivision applications and permitted demolitions. The categories (and associated subcategories) for building permit data are as follows:

- Residential (single-family, two-family, three-or-four-family, five-or-more-family, and mobile/manufactured homes)
- Industrial
- Commercial (offices/banks, retail/service/restaurants, service stations, hotels/motels)
- Community Service (hospitals/medical facilities, schools, government buildings)
- Not Elsewhere Classified
- Subdivision Applications (containing 4 or more lots)
- Demolitions by permit (for Residential, Industrial, Commercial, and Other structures)

A five-year trend analysis is provided for permitted residential units in all nine counties and industrial, commercial and community service building permits are analyzed over the five-year period. This time-series analysis is based on this year's and the four previous years' Land Use Monitoring Re-

ports produced by the Genesee/Finger Lakes Regional Planning Council (G/FLRPC).

In addition, a time series (historical trend) analysis is provided for residential, industrial, and commercial development and subdivision approvals in the MPA.

The MPA consists of Monroe County plus the adjacent developed areas of Livingston, Ontario, and Wayne counties. Table 1 represents the municipalities that, along with Monroe County, comprise the MPA.

An analysis of the collected data on the number, value, and size of buildings permitted in 2018 is provided for each county as well as the MPA.

The data on permitted building activity are provided in appendices at the end of this report for the reader to use for their own needs and analysis.

Methodology

The building permit data included in this report was collected through surveys sent to the municipal or county officials responsible for the collection and dissemination of such data in the nine counties. In six counties, these officials were often the code or zoning enforcement officers and in some cases were the municipal clerks. In Seneca and Wyoming Counties, building permit application approval and inspection are the responsibility of the respective county building departments and thus these departments provided the relevant data. In Monroe County, the Planning and Development Department's Division of Planning administered the surveys, received the responses from municipal officials in the County, and forwarded the data to G/FLRPC.

As noted above, each municipality other than Seneca and Wyoming Counties received a survey in January of 2019 asking for the requested data. The initial survey was followed up with reminder e-mails and telephone calls to those municipalities that had yet to respond. In some cases, several calls or e-mails were made to the appropriate parties over many months in an effort to acquire the requested information. Overall, 97.87% of the data was collected from 184 of the 188 municipalities within the nine-county G-FL Region.

The survey requested information on the number of permits issued, and the total square footage and total value for buildings in the defined categories and associated subcategories. In addition, the same building permit information for buildings outside of these categories was requested along with a description of the type of building(s) in the

"Other" category. In some cases descriptions were not provided, or items not applicable to the survey were reported. As such, some of the "Not Elsewhere Classified" category data is not completely accurate. The analysis conducted in this report is based on data provided by each LUMR survey contact.

The instructions for completing the survey were as follows:

"Include only permits for the construction of buildings in 2018. Do not include additions, repairs, decks, in-ground pools, etc. or buildings used for storage such as sheds and pole barns. Do not include permits for construction that was completed in 2018 but permitted in a previous calendar year. If the responses below include a town and a village on the same sheet, please denote this by listing them separately on the same line (example: T-8/V-12)."

For each of the nine counties, there is a discussion of permitted building activity in 2018 by county and county maps of residential units permitted in 2018 by municipality. Maps 10 – 18 represent each County's residential permits. Map 19 represents permits for residential units for the nine-county G-FL Region. Map 20 represents permitted residential units in the nine-county G-FL Region. Map 21 represents the 5-year residential permitted units in the nine-county G-FL Region. Data of industrial, commercial, and community service building permits issued in 2018 are presented on maps of the nine-county G-FL Region. See Maps 22-24.

The information and data provided for permitted building activity in Monroe County and the remaining portion of the MPA follows the same format. Maps 25 and 26 present the number of residential permits, and permitted residential units respectively in the MPA region in 2018. Maps 27 through 29

present the number of permitted industrial, commercial, and community service buildings in the MPA in 2018. Map 30 shows the distribution of residential building permits among the Transportation Analysis Zones (TAZ) within the MPA outside of Monroe County.

The residential data for MPA municipalities were used in a time series analysis of the number of residential units permitted by municipality for the years 2009 through 2018. The number of permits issued for industrial and commercial buildings from 2009 to 2018 in the MPA outside of Monroe County is also presented and discussed in the same manner.

The data gathered on number of building permits issued, square footage, and value in each category/subcategory by municipality in, and for the MPA, outside Monroe County are presented in Appendices A through H. The Appendices are as follows:

Appendix A:

Number, Square Footage, and Value of Permits Issued for Residential Buildings – 2018 by county

Transportation Analysis Zones (2018)

Transportation Analysis Zones (2018)

Addresses of residential building permits issued in 2018 were collected from municipalities located within the Metropolitan Planning Area (MPA) outside of Monroe County. Addresses were then geo-coded using Geographic Information System software to determine which Transportation Analysis Zone (TAZ) each permit was located in. Some addresses did not geocode accurately and were manually moved to the approximate location based on a review of aerial imagery. As the transportation analysis zones tend to follow road boundaries this should not impact the accuracy of the number of permits per transportation analysis zone.
