### About JouleCommunity Power

Principals responsible for design, organization, and implementation of New York State pilot Community Choice Aggregation (CCA) program  
 100,000 customers, over \$6million saved to date, largest renewable energy purchase in state history

Only entity in NYS with authorization to pay consumers with smart thermostats to be a responsive resource to the grid

First-of-its-kind proposal to empower CCA communities to source local clean energy as part of its supply portfolio

### Joule/RPCC Implementation Plan

- Municipality enabled to offer 10-20 years of guaranteed savings to its residents by partnering with community renewable projects
- Equal access for all income levels, credit profiles; no individual customer contracts; opt-out enrollment
- Project ownership options for customers and municipality itself
- Joule/RPCC act as "owner's rep" for municipality to develop projects on municipal sites, vet projects/developers
- Consumers see guaranteed discounts on their bill
- Supports local clean energy economy, system resilience, long-term planning
