

Public Works Equipment

October 26, 2023

Vactor 2100 Series

- The Vactor is a very useful piece of equipment.
- Jetter unclogs or pulls debris out of sewer lines with high water pressure.
- Hydro excavator is used to dig around utilities to reduce damage to other infrastructure.
- Hydro excavator also uses a vacuum that can help during a water leak to pump out water in minutes.

Approximate trade-in value:

\$19,000 with Kinlock equipment

\$30,000 with Patterson equipment

Vactor Options

Model 2040-750 Trailer

Fully contained machine = \$480K

Hydro-trailer = \$80K

Jetter trailer = \$90K

Currently renting or borrowing (when we can)

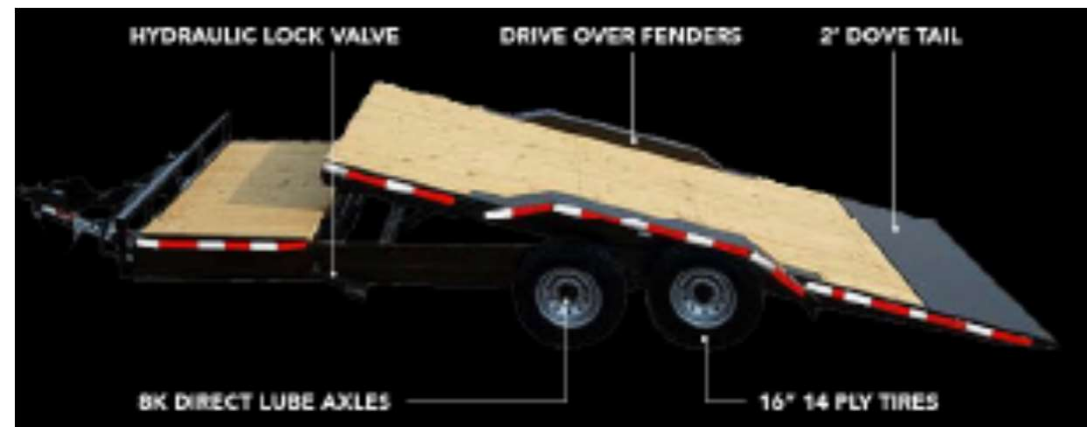

Trailers on Site

- Trailers are used to move equipment, materials, or other essential items.
- Two (2) trailers have bent axles and are no longer safe to use.
- 16ft trailer with ramps is unusable. Ramps are extremely heavy and break often.

Staff would recommend auctioning all three (3).

Trailer Options

Replace with these options:

- 7x16 Tube Top Lowboy = \$7K
- 7x21 Gravity Tilt = \$10K

Dump Truck

- 1984 GMC

Staff not currently using.
Safety concerns.

Would recommend auctioning.

Dump Truck Options

7x1473 Dump Trailer = \$11K

One Ton Flat Bed Truck

- 2004 Ram 3500 – Diesel (140K miles)

Not mechanically sound.
Cannot pull a load of equipment.

Heavy Duty Truck Option

- Purchase One Ton Truck = \$70K

Haul heavy loads and transport equipment need in repairs.
