The Village of Peck, known as Elk Corners from 1852 – 1903, was incorporated as the Village of Peck on February 26, 1903. The first council meeting was held on April 13, 1903. The story has it that Peck was named after George W. Peck, pioneer lumberman, railroad builder and statesman.

Electricity was installed in the Village in the year 1919. At that time, it was turned on promptly at 4:30 p.m. to 10:30 p.m. except Sunday, when it was on until 11:30 p.m. Finally, in 1925, the council gave permission to the electric company to supply all of Peck.

In 1982 the Village purchased property which was annexed into the Village in order to install three lagoons. It was then required that all residents tap into the sewer system. In 1984 new water lines were installed, requiring all residents to use the Village water system. At this time a new water tank holding 100,000 gallons of water, was purchased along with a system that kept track of how much water was being used.
